SUMMARY

Founder-built, data-first product person who ships before anyone assigns it. Ran PriceKeel start to finish: built the product from a live pricing-data problem, wrote the audit-trail and guardrail logic, and now runs CRM, forecast reviews and deal approvals solo. At Sensata ran the SQL and GA4 instrumentation behind a 50K-device KPI framework and 30+ structured user interviews that reshaped a roadmap, the same growth-review and research muscle a PostHog PM runs every month. Automates repetitive market and competitive analysis today with **Claude AI agents** at Applied Materials.

SKILLS

Tools: AI Agents (Claude), CRM & CPQ (Salesforce, HubSpot, Pardot), Jira, Confluence, Notion

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel** from a single live data problem: a discount exception with no audit trail inside a deal platform, designing the explainable guardrail logic that flags it from a company's own closed-won and closed-lost deals.
- Wrote the **audit trail** that gives Finance evidence for every pricing call, then set up and now run the company's **CRM, CPQ, forecast and pipeline reviews, and deal approvals** end to end, solo.
- Running **pilots** with early B2B customers and leading the **first fundraising round**, doing the discovery, the data work and the pitch myself before handing any of it off.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Runs **AI agents built on Claude** to automate repetitive market and competitive analysis, the same bias toward automating repeat work this seat rewards.
- Partners with **Sales, Engineering and Accounts** to size the semiconductor market and build forecasting models across multiple product groups, resolving conflicting field input into one number.
- Builds **competitive, value-based pricing** for a fast-growing market, carrying **P&L and revenue targets** and the leadership decks behind them.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Drove **competitive benchmarking across 10+ players** to reprice against incumbents multiple times Sensata's size, lifting **+12% YoY revenue and +8% market share**.
- Recovered **$700K+ in margin in 2 quarters** via the Bleeders and Leakers Power BI dashboard, a self-initiated data deep dive outside any standing review.
- Raised **distributor margins from 53% to 61%** and partnered on **AP26 revenue models** and multimillion-dollar customer quotes.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Instrumented **SQL and GA4 KPI frameworks** across 50K+ connected devices, surfacing the behavioral cohorts behind a monthly review and lifting feature adoption 18%.
- Owned the **product roadmap and a 100+-feature backlog**, running Agile with engineering across 3 regions to cut time-to-market 20%.
- Ran **30+ structured interviews** with OEMs and distributors to find why specific segments were churning, raising CSAT 22%.
- Led **end-to-end go-to-market** for new sensing products, including the commercial call on pricing and channel, driving $2M+ first-year revenue.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, then ran **15+ A/B tests** that cut CPA 25%.
- Turned **customer research** into a 20% increase in conversion rate and a 15% reduction in CPA, feeding findings straight into the next campaign brief.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Cut **client churn 50%** across an 8-client portfolio through proactive account strategy, channel diversification and vertical playbooks.
- Used **Amplitude and Tableau** on user behavior across 30+ campaigns to find why specific accounts were disengaging, lifting campaign ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Lifted a B2B startup's **conversion rate 36%** and revenue 25% via database audits and SEO fixes that reshaped how leads reached the funnel.
- Ran **database audits** and built dashboards that improved data accessibility 30%, the kind of recurring data hygiene that keeps a growth review honest.

PROJECTS

SwipeHire

- Built an **AI job-matching platform zero-to-one** (Python, OpenAI API, React): wrote the PRD, scoped the MVP, and shipped matching logic plus auto-tailored resumes to 50+ early users.
- Instrumented the **GA4/GTM analytics stack** behind the funnel, running 8+ A/B tests and 12+ user interviews that lifted activation 25%.
