SUMMARY

Founder and operator who works as a **force multiplier** across product, AI tooling and creative execution, not inside one fixed lane. Runs PriceKeel (B2B SaaS deal pricing, in pilots and raising) while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials, where repetitive analysis gets automated with **AI agents built on Claude**. Built an AI job-matching platform zero-to-one (Python, OpenAI API, React) at SwipeHire, solving product and engineering problems directly without requiring extensive coding support. Has also sat squarely inside the creative lever in collaboration with design and media partners: rebuilt a fashion brand's paid-media funnel with a full creative refresh for 3x ROAS in one month at Pixis, the kind of hands-on, AI-forward Chief of Staff range this mandate asks for.
