SUMMARY

Strategy and operations analyst who owns **0-to-1 growth problems** end to end, pulling the data in SQL and Excel myself. Launched new sensing products at Sensata from positioning through channel, driving **$2M+ first-year revenue**, then built the FY2026 Bleeders & Leakers Power BI dashboard from scratch to surface $433M in margin gaps across 1,200 opportunities. Partners with Sales, Engineering and Accounts at Applied Materials to size markets neither function could map alone, the same first-principles habit that drove +8% market share from competitive benchmarking at Sensata. Automates recurring analysis with **Claude AI agents** so the team spends its time on the decision, not the data pull.
