SUMMARY

Deal desk operator who audited closed deals against a **\$627M target**, diagnosed the root cause behind every margin gap, and drove the fix upstream to recover **\$700K+ in 2 quarters** at Sensata. Now founder of PriceKeel, where I set up and run the CRM, CPQ configuration, deal approvals and the audit trail that reconciles every exception against the contract it actually shipped, the same order-form-to-reconciliation loop a Deal Desk seat owns end to end. Automates repetitive pricing analysis with **Claude AI agents** as Strategic Marketing III at Applied Materials, and holds an MS in Marketing Analytics from Simon Business School.

EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reviews every in-flight discount exception for non-standard terms before it reaches Legal, the same order-form review this seat runs day to day.
- Designed the **audit trail** that reconciles each approved exception against the contract terms it actually shipped, giving Finance an explainable record instead of a reconciliation gap discovered at billing.
- Set up and runs the company's **CRM, CPQ configuration, deal approvals and intake workflow** end to end while running pilots and raising its first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so quotes and approval thresholds keep pace with demand.
- Automates repetitive analysis work with **AI agents built on Claude**, the same instinct behind turning a manual deal-review step into a self-serve system.
- Carries **P&L and revenue targets** while building forecasting and market-sizing models across multiple product groups, the same numbers a Deal Desk audit has to tie back to actuals.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Recovered **\$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program: audited closed deals against target, diagnosed whether the gap was a pricing error, a distributor term, or a rep behavior, and drove the fix upstream so it would not recur.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, then documenting the new discount logic so Finance could audit it on sight.
- Owned **multimillion-dollar customer quotes and AP26 revenue models** with senior executives and Finance, the cross-functional deal execution a Deal Desk seat runs day to day.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**, tracking 1,200 pricing opportunities against a \$627M target across 3 regions and 20 product lines, surfacing \$433M in margin gaps for leadership to prioritize by salesperson.
- Drove **+12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel structuring, driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and pricing tolerance ahead of launch.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Presented **marketing budgets of \$100K/month** across multiple business units to leadership for approval, building the plans and forecasts behind them.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop, data-hygiene reporting.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts, cutting client churn 50% through proactive account strategy.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Rebuilt **Google Merchant Center and Meta catalog feeds**, delivering 16x ROAS for D2C e-commerce brands.

PROJECTS

SwipeHire

- Modeled **3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals while building an AI job-matching platform end to end (PRD, MVP scope, launch).
