Hiring Team, Z47

SuperOps is scaling its GTM motion across India and the US while expanding the Founder's Office to carry that work end to end, and that is the exact shape of what I have been doing at PriceKeel: owning GTM strategy, pricing and packaging for a B2B SaaS product with no playbook handed to me. I designed the guardrail engine and audit trail that turns a pricing exception into a decision Finance can defend, sold it directly to RevOps, Sales leadership and Finance against legacy CPQ tooling, and I am now running pilots while raising the company's first round, which means I have had to build the business case and tell the data story myself, not hand it off to someone else.

Before PriceKeel, I led global pricing strategy for Sensata's Industrial BU, where I partnered with senior executives on AP26 revenue models and multimillion-dollar customer quotes, then built the FY2026 Bleeders and Leakers Power BI dashboard tracking 1,200 pricing opportunities against a \$627M target, surfacing \$433M in margin gaps for leadership to prioritize by region and product line, and recovering \$700K+ in margin in two quarters. That is the "get to the right data quickly and tell a clear, persuasive story" half of your role, done at real B2B industrial scale with a board watching the number.

I also carry the operating rhythm side of a Founder's Office seat. I have carried P&L and revenue targets at Applied Materials and Sensata, built leadership decks, run OKRs with weekly and quarterly business reviews, and hired and managed teams that had to move without constant escalation. I automate the repetitive parts of that reporting cycle with AI agents built on Claude, so more of the week goes to the judgment calls a Founder's point of view actually needs.

What I would bring on day one is a founder's instinct for ambiguous, cross-functional problems paired with the financial modeling and competitive-intelligence depth to back a recommendation with numbers, not just conviction. Proof trail at adhithyabhaskar.vercel.app/ref/z47.
