- Drove **\$2M+** first-year pipeline on new product GTM across NA and EU; integrated email + paid + events on a single launch calendar coordinated across regional stakeholders.
- Ran **30+ structured customer interviews**; competitive analysis on **10+ competitors**; translated voice-of-customer into operating-cadence improvements that contributed to **+8% market share** and CSAT **+22%**.

Digital Marketing Manager, Plug Power

- Ran a **4-vendor MarTech RFP and rollout**: scoped requirements, scored vendors against attribution depth and integration cost, negotiated terms with Procurement, aligned **6 internal stakeholders** across sales, ops, and engineering.
- Documented **SLAs and escalation paths** in writing so issues had a written track record before they became problems; established weekly performance reviews and post-mortem cadence with vendors.
- Owned the cross-functional rebuild of a closed-loop attribution system on Salesforce, Adobe Analytics, GA4, and GTM; **-25% CPA** and **+20% conversion** through systematic process, not heroics.
- Created reusable operating templates (UTM spec, GTM container audit, lead-routing rulebook) so the next program manager inherited a system, not a black box.

- Designed measurement playbooks: metric definitions, A/B testing cadence, reporting standards documented in writing so methodology arguments stopped happening on Slack.
