

ADHITHYA ROKHITH BHASKAR

Pricing Analytics + AI/LLM Builder | Python + R + Claude API | Empirical Quantitative Marketing Research

Boston, MA | +1 (929) 563-9974 | arokhith@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

MS Marketing Analytics from Simon Business School (Pricing Analytics + Advanced Pricing + Data Management & Visualization + econometrics-adjacent coursework), 4+ years applying empirical methods to industrial pricing and growth analytics at Sensata, Plug Power, Pixis, and GenY. Hold 4 Anthropic Claude certifications, ship LLM products solo (SwipeHire on Python + OpenAI API + React; NSE Paper-Trading Bot on Python + Claude API agentic reasoning), and have led global pricing for Sensata's Industrial BU, where AI-enabled price-discovery is starting to reshape buyer-seller information asymmetry - the Economics & Policy research surface I'd want to investigate as a Fellow.

SKILLS

Programming and Data: Python (pandas, NumPy, Matplotlib), R, SQL, Cross-Validation, Feature Selection, Linear Regression, Demand Elasticity Modeling, Statistical Inference, Empirical Methods, Data Visualization

LLM and AI Tooling: Anthropic Claude API, OpenAI API, Claude Code, Cursor, Prompt Engineering, Agentic Reasoning, AI Evaluation, LLM Product Iteration

Pricing and Market Economics: Global Pricing Strategy, Price Elasticity, Margin Optimization, Competitive Pricing, Revenue Modeling, Market Structure Analysis, Industrial B2B Procurement Dynamics

Quantitative Marketing and BI: Power BI, Tableau, GA4, Google Tag Manager, Adobe Analytics, KPI Frameworks, Cohort Analysis, A/B Testing, Stakeholder Reporting

EXPERIENCE

Pricing Lead and Product Marketing - Sensata Technologies

Sep 2024 - Present

- Lead **global pricing strategy** for the Industrial BU; influenced **AP26 revenue scenarios** with senior executives; drove **+12% YoY revenue** and **8% market share gain** via competitor + customer analysis across EMEA and US.
- Built an executive **Power BI dashboard** tracking **1,200 pricing opportunities (\$627M target)** across 3 regions and 20 product lines: % to target, win rate, avg \$/win, pipeline-stage KPIs; surfaced **\$433M in margin gaps** for leadership and weekly business reviews.
- Built a **KPI framework in SQL + GA4** on usage data across **50K+ connected industrial devices**; identified high-intent cohorts and segmentation patterns informing pricing tiers and feature adoption.

Product Marketing Intern - Sensata Technologies

Jul 2024 - Aug 2024

- Conducted competitive + distributor-network analysis across the US and EU, building structured datasets that informed pricing-tier and channel-strategy decisions.

Digital Marketing Manager - Plug Power

Oct 2022 - Jul 2023

- Rebuilt **closed-loop attribution from zero** (UTM spec, GTM containers, GA4 events, Salesforce attribution, Adobe Audience Manager segments); A/B tested keywords, copy, and audience layers, delivering **-25% CPA** and **+20% conversion**.
- Designed cohort + channel slicing for weekly dashboards on **Tableau + GA4**; built 6 behavioral audience segments and 3 suppression lists, lifting MQL to SQL conversion across priority product lines.

Customer Success and Growth Manager (AI Adtech Platform) - Pixis

Jul 2021 - Sep 2022

- Operated inside an **AI adtech platform** at scale across an 8-client B2B SaaS and D2C portfolio at **\$1.4M aggregate annual book** - first-hand exposure to AI-deployment economics in advertising-market pricing and creative automation.
- Ran a **holdout-incrementality experiment** on a D2C beauty client (matched holdout vs exposed cells over 3 weeks); identified two over-credited channels, reallocated spend on true causal lift, delivered **3x ROAS the next month**.

Senior Digital Marketing Analyst - GenY Medium

Jan 2020 - Jun 2021

- Delivered **16x ROAS** for a D2C e-commerce brand by rebuilding Google Merchant Center feeds end-to-end + shipping structured product data; built weekly founder-facing dashboards informing budget and creative roadmaps.

PROJECTS

NSE Paper-Trading Bot - Python + Claude API agentic reasoning

- Shipped a Python scanner on live NSE data (pandas, NumPy, nsepython, yfinance) with rule-based technical scoring (EMA, RSI, ATR) and an **agentic Claude API reasoning layer** over news, earnings, and macro catalysts; interactive web dashboard for paper-trade validation.

SwipeHire - Python + OpenAI API two-sided LLM matching product

- Built an **AI matching platform** (Python, OpenAI API, React) zero-to-one with day-one GA4 + GTM event taxonomy, **8 A/B tests** with sample-size and significance gates defined up front, weekly cohort retention review; **50+ users, +25% activation** V1 to V2.

Optimal Pricing Prediction Model - R

- Developed **R-based pricing optimization models** using linear regression with **10-fold cross-validation** and exhaustive feature selection to forecast demand elasticity and identify profit-maximizing price points across product feature scenarios.

EDUCATION

MS in Marketing Analytics

Simon Business School, University of Rochester

Quantitative Coursework: Pricing Analytics, Advanced Pricing, Pricing Policies, Data Management and Visualization, Consumer Behavior.

Teaching Assistant: Digital Marketing Strategy and Economics & Marketing Strategy

Project Manager: Led a team of 5 consultants on a Pro-Bono Consulting Project for Safran, focusing on GTM market expansion.

BE in Mechanical Engineering

Birla Institute of Technology and Science (BITS), Pilani

CERTIFICATIONS

Anthropic Claude Certifications: Claude 101, Claude Code 101, Claude Cowork, Building with Claude API. Additional: Digital Marketing (London Business School), Principles of Negotiation (Yale), Advanced Pricing.
