Foundational Build, Already Run Twice

What FedEx Dataworks Hires For

- Build the growth marketing function from awareness to demand gen
- Multi-channel campaigns into enterprise audiences for pilot programs
- Build and manage a data-driven experimentation team
- Partner with Strategic Initiatives, Product, and GMs on pipeline
- Own marketing analytics + KPIs + reporting
- Adopt AI tooling to advance prospects through the funnel

What I Have Already Done

\$2M+

First-year pipeline at Sensata

-25%

CPA at Plug Power

8

Enterprise marketers trained on AI

3 + 4

Regions + product families at Sensata

3x

ROAS, holdout-validated

\$627M

Power BI dashboard scope at Sensata

- Built MarTech from scratch at Plug Power on Salesforce + Adobe + GA + GTM
- Led 8-person team at Pixis across creative + account + platform
- SwipeHire + Claude draft-and-critique pipeline already production

Pixis 8-Client Book, Same Shape as Foundational B2B SaaS Growth

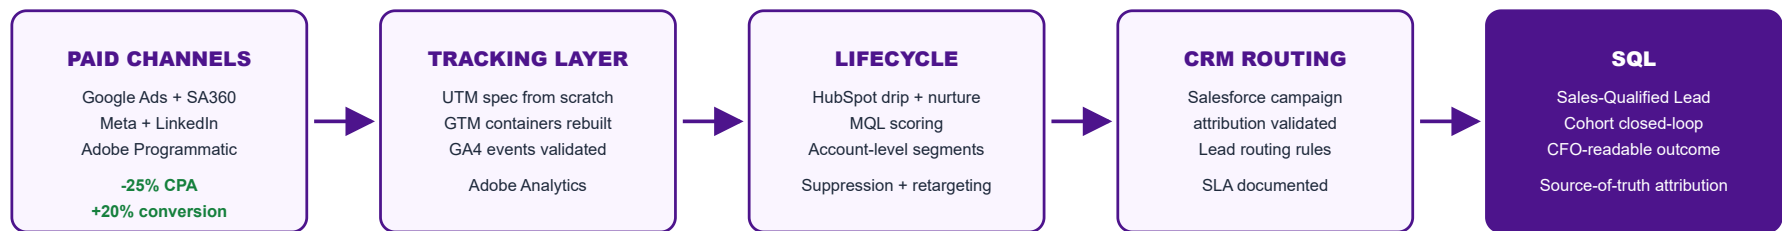

Per-client monthly budgets ranged \$15K to \$90K. Eight-person team across creative, account management, and platform specialists. Each row was one client, one weekly QBR, one set of recommendations. The skill is the same one Dataworks needs from a Manager who is hiring up the function.

Client	Vertical	Channels	Spend / Mo	ROAS	WoW Trend	Status	This Week's Action
Client A	SaaS Productivity	Google + LinkedIn + Programmatic	\$90K	3.4x	+12%	Scale	Holdout incrementality, +30% budget
Client B	FinTech B2B	Google + LinkedIn	\$72K	2.1x	-8%	Refresh	New creative cycle, audience expansion
Client C	Logistics SaaS	LinkedIn + Programmatic	\$58K	1.4x	-22%	Replace	Mid-quarter pivot, ABM list rebuild
Client D	DevTools SaaS	Google + Programmatic	\$65K	2.8x	+5%	Hold	Suppression list audit, retargeting refresh
Client E	Supply Chain B2B	LinkedIn + Programmatic	\$45K	4.1x	+18%	Scale	ABM list expansion, lift campaign
Client F	Fashion D2C	Meta + Google Shopping	\$32K	2.3x	-3%	Diagnose	Creative-fatigue audit, top 5% session check
Client G	Edu D2C	Meta + Google Search	\$22K	2.6x	+9%	Hold	Lookalike expansion, lifecycle email tie-in
Client H	E-Commerce	Meta + Google Shopping + TikTok	\$15K	3.0x	+7%	Hold	Catalog refresh, Advantage+ test

The translation muscle. I trained 8 enterprise marketers on AI bidding tools as part of weekly QBRs to client CFOs and growth leads. Translating AI methodology into procurement-ready outcomes is structurally the same translation Dataworks does for value-chain-intelligence buyers.

Plug Power: Built the Growth Function From Scratch

Same shape as the Dataworks "build the function" mandate. UTM spec from scratch. GTM containers rebuilt. Lead routing validated through Salesforce campaign attribution. CPA -25%, conversion +20%.

Same Build Pattern Dataworks Needs From Day One

Salesforce + Adobe + GA4 + GTM + paid + lifecycle, end-to-end

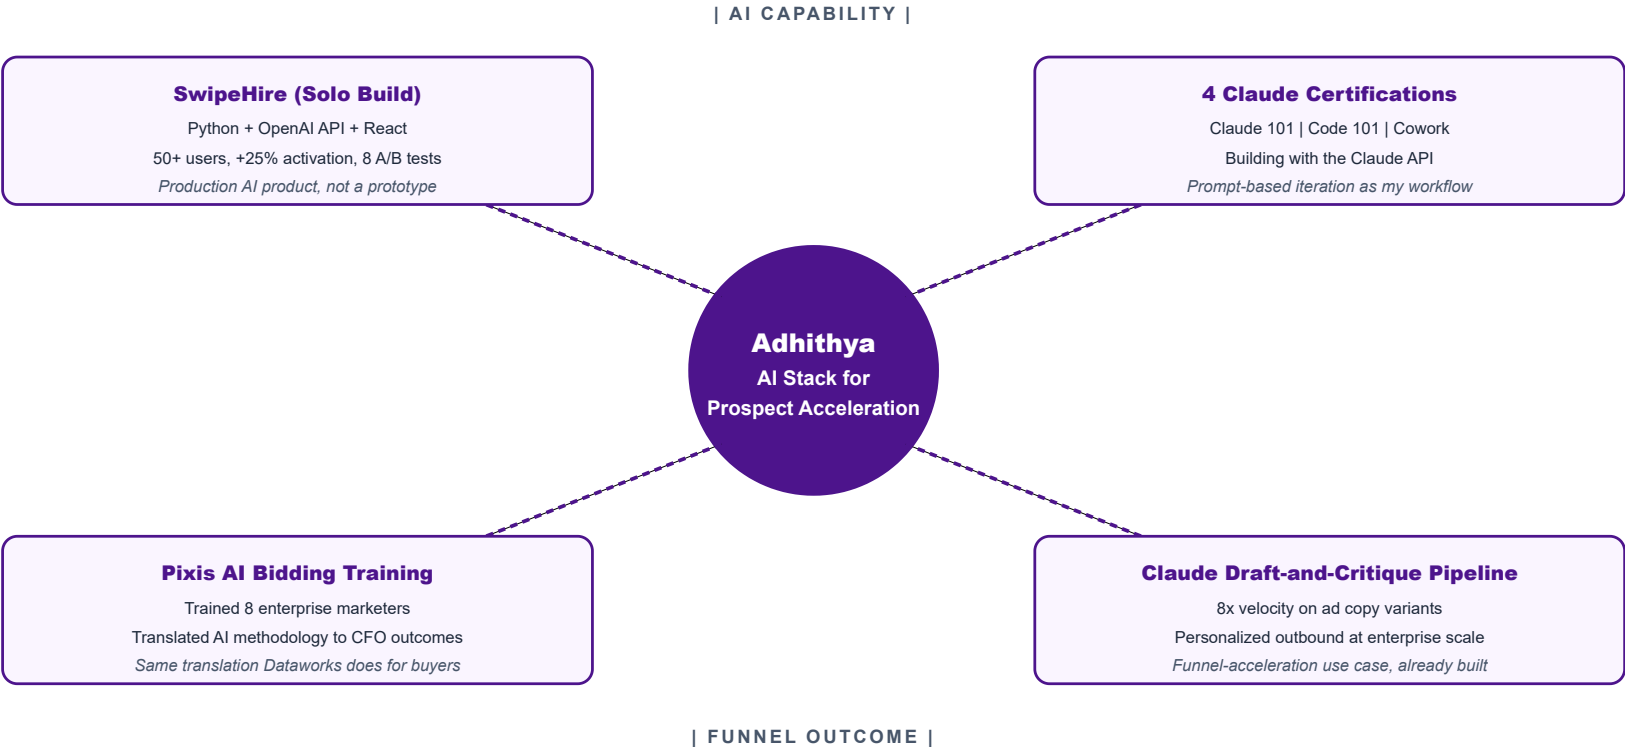

+ COORDINATION LAYER

4-vendor MarTech RFP + rollout, 6 internal stakeholders aligned across Sales + IT, Procurement terms negotiated, SLAs documented

The work that translates "tool sprawl" into "source of truth in Salesforce"

Already Wired the AI Stack the JD Asks For

The JD calls out "adopt AI tooling to advance prospects through the sales funnel." Below: how the four pieces of my AI stack already serve that exact mandate. Hub view of the translation muscle.

15 Minutes With the Hiring Team

What I would want to understand: which of the pilot programs is currently the most under-instrumented from an attribution standpoint, what the year-one shape of the team build looks like, and how growth marketing reports up to Strategic Initiatives in practice.

What I would bring to the conversation: a one-page proposal for the first three growth experiments I would run in week two, a draft KPI dashboard structure tied to value-chain-intelligence pilot conversion, and a quick read on which paid channel is best matched to the enterprise data-buyer audience.

Remote US works. Open to Memphis travel for offsites and quarterly cadence. Boston-based today.
