Hiring Team, Hyperbound,

The "growth outpaced our systems" line in your JD is the exact situation I walked into at Plug Power. I rebuilt the MarTech stack from scratch on **HubSpot + Salesforce + Adobe Analytics + GA4 + GTM**: sequences, lifecycle stages, dedup, source tracking, closed-loop attribution from ad click to SQL. That work dropped CPA 25%, lifted conversion 20%, and gave the team a clean pipeline they could trust.

Direct evidence I am the right operator:

- **Plug Power MarTech rebuild:** Wrote UTM spec from scratch, rebuilt GTM containers, validated lead routing into Salesforce campaign attribution. Built account-level audience segments, retargeting funnels, and suppression lists in Adobe Audience Manager.
- **Pixis (8-client B2B SaaS AI marketing platform):** \$15K-\$90K per-client monthly budgets. Trained 8 enterprise marketing teams on GTM stack hygiene + AI bidding methodology under weekly client QBR pressure. Cut client churn 50%.
- **SwipeHire (founded solo):** Built on Python + OpenAI API + React. Instrumented GA4 + GTM + Amplitude from day one. The "build the workflow, fix the leak before it becomes a fire" instinct is native to me.

I am Boston-based and SF or Remote-US both work for the role. The Will Sponsor on the JD is appreciated.

Looking forward to talking.

Adhithya Rokhith Bhaskar
