EXPERIENCE

Founder & CEO, PriceKeel

May 2026 to Present

- Founded and building **PriceKeel**, a **decision-integrity layer for B2B SaaS deal pricing**: it reads a live discount exception inside the deal platform, recommends an explainable guardrail learned from the company's own closed-won and closed-lost history, and records the human decision with evidence Finance can audit.
- Own the **full zero-to-one GTM** end to end: ICP definition, category narrative against legacy CPQ and deal-desk tooling, pricing-and-packaging thesis, and the buyer-facing story for RevOps, Sales leadership, and Finance; currently extending the product with a **margin layer** on top of the guardrail engine.

Strategic Marketing III, Applied Materials

Jun 2026 to Present

- Own **market and competitive intelligence** for semiconductor equipment product lines, converting segment analysis and customer input into positioning and go-to-market recommendations for product and sales leadership.

Product Marketing, Sensata Technologies

Sep 2024 to Jun 2026

- Owned **positioning and messaging** for industrial sensor product lines, turning dense technical specs into customer value propositions that lifted conversion **15%** on priority launches.
- Built the **sales enablement system** for **50+ reps** (pitch decks, demo narratives, battlecards, ROI narratives, objection handling), tied to a **+30% lift in win rates** and faster movement on priority deals.
- Ran **30+ structured interviews** with OEMs and distributors and paired them with **SQL + GA4 usage data across 50K+ industrial devices**, feeding a **100+ feature backlog** with engineering that raised feature adoption **18%** and cut time-to-market **20%**.
- Led **end-to-end GTM** for new sensing lines across NA and EU, sequencing narrative, launch content, and enablement into **\$2M+ first-year revenue**, **+35% qualified leads**, and **12% YoY revenue growth**.
- Ran **competitive teardowns on 10+ players**, exposing pricing and feature gaps that fed the battlecards and contributed **+8% market share**.

Product Marketing Intern, Sensata Technologies

Jul 2024 to Aug 2024

- Analyzed competitors and distributor networks across the US and EU, surfacing the market gaps that reshaped distribution strategy before converting to the full-time role.

Digital Marketing Manager, Plug Power

Oct 2022 to Jul 2023

- Rebuilt the **web and MarTech stack from zero** on Salesforce, Adobe Analytics, GA4, and GTM: UTM spec, landing-page architecture, CTA and creative testing, form-to-CRM sync. CPA fell **25%** and conversion rose **20%**.
- Traced the full path from ad click to Sales-Qualified Lead, giving marketing and sales one shared definition of pipeline quality instead of two competing dashboards.

Customer Success Manager, Pixis (AI Marketing Platform)

Jul 2021 to Sep 2022

- Drove **adoption of an AI decisioning platform** inside 8 enterprise revenue teams, training marketers on AI bidding and creative automation and cutting book churn **50%**. Learned where AI recommendations get trusted and where they get ignored.
- Led an **8-person team** across a client book running **\$15K to \$90K monthly media budgets**; ran QBRs translating CAC, LTV, and ROAS into pipeline language for non-marketing executives, and tripled a fashion client's ROAS in a month.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 to Jun 2021

- Delivered **16x ROAS** for a D2C brand by rebuilding Google Merchant Center and Meta catalog feeds, with a weekly creative-test cadence behind it.
