Hiring Team, Soraban,

Soraban is building AI tax workflow for accounting firms - a technically literate, time-poor, professionally skeptical buyer. The Marketing Manager role wants someone who can run multi-channel campaigns, ship content for the audience, coordinate industry presence, and tie everything to a measurable pipeline number. I have done this exact work at Plug Power.

Direct evidence:

- **Plug Power MarTech rebuild:** Full stack on HubSpot + Salesforce + Adobe + GA4 + GTM. -25% CPA, +20% conversion across Google + Meta + LinkedIn + programmatic. Coordinated 3 industry conferences + 6 webinars. Wrote product announcements, case studies, long-form. Shipped SEO + AEO/GEO programs.
- **Sensata B2B technical buyer:** Sales enablement library used by 50+ reps lifted win rates 30%. Ran 30+ customer interviews driving roadmap. \$2M+ first-year revenue via positioning and channel strategy.
- **Pixis AI marketing platform CSM:** 8 enterprise clients, \$15K-\$90K per-client monthly. Trained client teams on AI bidding methodology. Selling AI to skeptical professional buyers.
- **SwipeHire (founded solo):** Built on Python + OpenAI API + React. 50+ users, +25% activation, zero paid budget.

Boston-based, open to relocating to Chandler, AZ. The 3+ Yrs band fits cleanly at 4+ YoE.

Looking forward to talking.
