SUMMARY

Account-managing strategist who has already done the exact job Uplane is hiring for: **deploying an AI marketing platform to enterprise clients and getting them to win with it**. As Customer Success Manager at Pixis (AI marketing platform: cross-channel bid optimization, generative creative, audience modeling), I owned 8 enterprise clients with **per-client monthly budgets of \$15K-\$90K**, trained their marketing teams on the AI engine, and validated **3x ROAS in one month** for a fashion D2C partner via holdout incrementality testing. Cut client churn **50%** via mid-quarter strategy resets. Founded SwipeHire end-to-end on Python + OpenAI API + React (app.swipehire.io), so I am fluent on both sides of the AI-product handoff. MS Marketing Analytics, Simon. 4 Anthropic Claude certifications.
