Hiring Team, a0.dev,

a0.dev is building AI-generated mobile apps. The Founding Growth Lead role wants someone who can run paid acquisition for that audience, ship founder-led content, and operate inside the AI-product builder community. I have done all three.

Direct mobile-UA experience:

- At **Pixis**, I owned iOS app paid UA for consumer-mobile clients across **Appsflyer + Adjust + SKAN** post-IDFA attribution, Apple Search Ads, Google UAC, and Meta App Install. Rebuilt cohort LTV models for budget allocation across an 8-client portfolio with per-client monthly budgets of \$15K-\$90K (\$1.4M annualized).
- Validated 3x ROAS lift for a fashion D2C partner in one month via holdout incrementality testing.

Founder-led growth on an AI product:

- Founded **SwipeHire** on **Python + OpenAI API + React** (app.swipehire.io). 50+ users, +25% activation across 8+ A/B tests, zero paid budget.
- Owned positioning, 5+ landing page variants by ICP, founder-led LinkedIn + X content, and a referral loop that drove 60% of net-new signups. Shipped weekly product updates with launch posts and demos.

D2C + B2B multi-channel range:

- 16x ROAS at **GenY** for a D2C consumer brand via Google Merchant Center + Meta catalog rebuild. -25% CPA at **Plug Power** via MarTech rebuild on HubSpot + Salesforce + Adobe + GA + GTM. Coordinated 3 industry conferences and 6+ webinars.

The contract-to-hire structure with on-site SF cadence works well. I am Boston-based and ready to relocate. 4 Anthropic Claude certifications + the SwipeHire repo are direct evidence that I think in your stack natively.

Looking forward to talking.
