## EXPERIENCE

### Founder & CEO, PriceKeel

May 2026 - Present

- Founded a **decision-integrity layer for B2B SaaS deal pricing** that gives Finance an auditable trail for every discount exception, the same price-governance problem a strategic deal-pricing team runs at scale.
- Designed an **explainable discount guardrail engine** learned from each customer's own closed-won and closed-lost deals, pitching the pricing-integrity case directly to RevOps, Sales leadership and Finance.
- Runs the company's own **CRM, CPQ, forecast and pipeline reviews, and deal approvals** while running pilots and raising its first round.

### Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing market, forecasting its inflection points so pricing frameworks keep pace with demand instead of lagging it.
- Runs **forecasting and market-sizing models** across multiple product groups, turning Sales, Engineering and Accounts input into one pricing view for stakeholders.
- Automates **repetitive pricing and revenue analysis with AI agents built on Claude**, the same measurement discipline this role would bring to tracking pricing KPIs and auto-generated dashboards.

### Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy and price governance** for a multi-\$100M Industrial BU, structuring and approving deals across multiple product lines and packaging tiers while carrying P&L and revenue targets.
- Recovered **\$700K+ in margin in 2 quarters** through the Bleeders & Leakers program: real-time improvements to pricing processes and offers built on competitive gaps and customer willingness-to-pay, not list price alone.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by rebuilding the discount-approval process for parts sold through distribution.
- Built the FY2026 **Bleeders & Leakers Power BI dashboard** ranking 1,200 pricing opportunities against a \$627M target across 3 regions and 20 product lines, giving leadership auto-generated KPI reporting and surfacing \$433M in margin gaps to prioritize.
- Partnered with senior executives and cross-functional stakeholders (**Finance, Sales, Operations**) on AP26 revenue scenarios and multimillion-dollar customer quotes, the same deal-structuring, trusted-advisor role this req plays for LMS's largest accounts.

### Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM pricing and channel strategy** for new sensing products across North America and Europe, structuring offers that drove \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to size willingness-to-pay and find pricing friction, insights that drove pricing-process changes raising CSAT 22%.

### Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month marketing budgets** across multiple business units, building the plans and forecasts presented to the leadership team for approval, the same budget-governance discipline a pricing program runs.
- Ran **bid optimization and A/B testing** across Google Ads, Microsoft Ads, Meta and LinkedIn, delivering -25% CPA through the same iterative process-innovation discipline a pricing program needs to scale.

### Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** across an 8-client, 8-person-team portfolio with per-client budgets of \$15K-\$90K/month, reporting results to senior management.
- Cut **client churn 50%** through proactive account strategy and vertical playbooks, the retention math a pricing-program change is ultimately measured against.

### Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's conversion rate 36% by rebuilding feed and catalog infrastructure.

## PROJECTS

### Optimal Pricing Prediction Model

- Built **R-based pricing optimization models** using linear regression to forecast demand elasticity and identify profit-maximizing price points across product feature scenarios, the quantitative pricing-research skill this req asks for.
