SUMMARY

Founder and operator who turns ambiguous **strategic priorities into execution roadmaps** with KPIs and measurable outcomes. Runs PriceKeel, a B2B SaaS deal-pricing startup now in pilots and raising its first round, while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials, and recovered $700K+ in margin in 2 quarters as Pricing Lead at Sensata by building the tracking systems, automation and bottleneck fixes that kept distributed teams and senior executives moving against one plan. Genuinely curious about AI and automation: builds and runs AI agents on Claude to take over repetitive work, and has worked directly with clients and vendor partners across multiple regions.
