EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built a **guardrail engine** that scores discount exceptions against explainable logic learned from a company's own closed-won and closed-lost deals, and run the company's **CRM, CPQ, forecast reviews and deal approvals** end to end, the same quote-to-cash discipline this seat owns.
- Designed the **audit trail** that gives Finance evidence for every pricing call, built with the same rigor as deal desk documentation, connecting pricing policy, deal terms and finance sign-off into one record.
- Running **pilots** with early B2B customers and raising the first round, structuring deal terms and project-managing each pilot's rollout from planning through close.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting inflection points so pricing and deal terms keep pace with demand.
- Partner with **Sales, Engineering and Accounts** to resolve cross-functional pricing and quote discrepancies before they reach a customer, the same friction this seat is asked to find and fix in quote-to-cash.
- Automate recurring pricing analysis with **AI agents built on Claude**, the same practical AI and automation habit, checking data completeness and flagging discrepancies, this role asks for.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business), recovering **$700K+ in margin in 2 quarters** through the Bleeders and Leakers program of deal-by-deal negotiation reviews.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target, with pipeline funnel, win-rate and stage tracking, surfacing $433M in margin gaps by product line, a quote-to-cash process improvement built and shipped end to end.
- Raised **distributor and channel-partner margins from 53% to 61%** by repricing parts sold through distribution, balancing partner relationships against company economics on every deal.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes alongside senior executives, the same non-standard, high-value deal structuring this seat reviews and approves.
- Drove **+12% YoY revenue and +8% market share** via price realignment benchmarked against 10+ competitors, and ran the leadership decks and quarterly reviews behind the program.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel terms, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and quantify pricing friction before launch, feeding findings back into deal policy.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **$100K/month budgets** across multiple business units, building plans and project timelines that leadership approved.
- Led bid optimization and A/B testing that cut **CPA 25%**, documenting the process changes behind each result.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, hiring and managing an 8-person team and cutting client churn **50%** through proactive account strategy.
- Delivered **3x ROAS in one month** for a leading fashion brand via full-funnel restructuring, documenting the playbook so the process repeated cleanly across other accounts.

- Lifted a B2B startup's **revenue 25%** and delivered **16x ROAS** for D2C brands by rebuilding catalog feeds and running database audits.
- Ran **database audits** and built dashboards that improved data accessibility **30%**, the same clean-record discipline quote-to-cash reporting depends on.
