Runs **PriceKeel**, a B2B SaaS deal-pricing company where he set up the CRM, CPQ and deal-approval flow himself, in pilots and raising its first round. Drove **16x ROAS for D2C e-commerce brands** at GenY Medium by rebuilding catalog and channel feeds, then hired and ran an 8-person team at Pixis that cut client churn 50% through hands-on account work and vertical playbooks. EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Took full **ownership** of a raw pricing problem and executed it into a **running product**: guardrail engine, audit trail and go-to-market built from a blank page, with no playbook and no team handed over.
- Set up and runs the company's own **CRM, CPQ, forecast and pipeline reviews, and deal approvals** from scratch, the same build-your-own-systems work a messy, early-stage operation needs.
- **Sells directly into RevOps**, Sales leadership and Finance with no existing champion or mandate, while running pilots with early customers and raising the company's first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Pushes **Sales, Engineering and Accounts** for decisions and turns their input into one market view leadership can act on, rather than waiting for consensus.
- Builds **competitive, value-based pricing** and forecasting models across multiple product groups, tracking the market's inflection points.
- Carries **P&L and revenue targets** for the role, running the OKR cadence behind weekly and quarterly business reviews.
- Automates repetitive analysis with **AI agents built on Claude**, freeing time for the judgment calls a zero-to-one build needs most.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Owned **global pricing strategy** for the Industrial BU (a multi-\$100M business), carrying full P&L and revenue targets across multiple product lines.
- Recovered **\$700K+ in margin in 2 quarters** by building the Bleeders and Leakers program from scratch: negotiations grounded in competitive data and documented customer willingness to pay.
- Shaped **AP26 revenue models** and site-transition strategy directly with senior executives, building the leadership decks behind it.
- Promoted from Product & Growth Marketing to **Pricing Lead in 10 months** after raising distributor and channel-partner margins from 53% to 61%.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Drove execution across **Engineering, agencies and a 100+ feature backlog** with no formal authority over any of the teams, directing the cross-functional roadmap for sensor solutions across 3 regions.
- Owned **B2B go-to-market** for new sensing products across North America and Europe, positioning through launch, delivering \$2M+ in first-year revenue.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Hired and managed **marketing team members** with no existing playbook to hand them, building the plans and forecasts presented to the leadership team for budget approval.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting once the manual process became the blocker, while owning \$100K/month in budgets across multiple business units.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Hired and managed an **8-person team running 8 client P&Ls**, cutting client churn 50% through proactive account strategy and **vertical playbooks built from scratch**.
- Ran **channel diversification** across retail media (Amazon Ads, Criteo) and iOS app UA (Appsflyer, Adjust), reporting recommendations directly to senior management.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- Delivered **16x ROAS for D2C e-commerce brands** by rebuilding Google Merchant Center and Meta catalog feeds, the same channel and feed work that turns a strong product into a repeatable acquisition engine.
- Lifted a B2B e-commerce startup's **conversion rate 36%** and **revenue 25%**, bridging regional, localization and analytics teams as the main liaison.

PROJECTS

SwipeHire

- Built an **AI job-matching platform** zero-to-one: wrote the PRD, scoped the MVP, hired and managed the team that shipped it to 50+ early users with no existing team or process.
- Ran **board decks and OKR reviews** (weekly and quarterly) while owning ICP, positioning and the GTM and analytics stack end to end.
