Product Management | Platform Systems, Shared Services, AI-Native Safeguards | B2B SaaS and Industrial Tech

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Platform-minded product builder who turns competing-priority needs into one shared system instead of scattered fixes. Unified Sales, Engineering and Accounts onto one market-sizing model at Applied Materials, and owns a 100+ feature backlog and roadmap across Sensata's sensor line with Engineering across 3 regions. Shipped SwipeHire's AI job-matching platform (Python, OpenAI API, React) zero-to-one, designing its own matching logic and safeguards before onboarding 50+ users. Defines adoption metrics in SQL and GA4 when no shared definition exists yet, and ships Claude AI agents to automate the analysis a lean cross-functional team can't delegate.

SKILLS

Product: Platform Strategy, Shared Services, Roadmapping, Backlog Management, Agile/Scrum, PRD Writing, MVP Scoping, Jobs-to-be-Done, Prioritization (RICE/ICE), Cross-Functional Alignment, AI Evaluation & Safeguards

Analytics: SQL, Python (pandas, NumPy, Matplotlib), GA4, Google Tag Manager, Power BI, Tableau, A/B & Multivariate Testing, Cohort & Funnel Analysis, Regression

Product Marketing & Strategy: GTM Strategy, Market Sizing (TAM/SAM/SOM), Competitive Intelligence, Positioning & Messaging, Launch Plans

Pricing & Monetization: Value-Based Pricing, Willingness-to-Pay Research, Packaging

Tools: AI Agents (Claude), Jira, Confluence, Notion, Figma (basics)

EXPERIENCE

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- **Unifies fragmented market input** from Sales, Engineering and Accounts into one forecasting and sizing model across multiple semiconductor product groups, the single shared view competing-priority stakeholders can build a plan from instead of running three separate ones.
- **Forecasts the market's next inflection point** to keep competitive, value-based pricing ahead of demand, treating pricing as one system to maintain rather than a one-off call per deal.
- **Automates repetitive analysis** with AI agents built on Claude, freeing hours for the judgment calls a lean cross-functional team can't hand off.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Owns the product roadmap and a 100+ feature backlog** for the sensor line end to end, aligning Engineering across 3 regions on one shared prioritization system instead of three regional ones, accelerating releases 25% and cutting time-to-market 20%.
- **Converts raw usage data into a KPI framework** in SQL and GA4 across 50K+ connected devices, defining adoption metrics from scratch where no shared definition existed, lifting feature adoption 18%.
- **Runs 30+ customer interviews** with OEMs and distributors who each had competing priorities, surfacing the shared pain points that raised CSAT 22%.
- **Scopes GTM end to end** for new sensing products across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue.
- **Translates technical specs into one value story** multiple buyer teams can act on, lifting conversion 15% on priority launches.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- **Built a BU-wide price-increase model** in Power BI flagging line items where a change could lift profitability more than 50%, the same rank-and-prioritize discipline a shared platform backlog runs on.
- **Drove +12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- **Ran bid optimization and A/B testing** across Google Ads, Microsoft Ads, Meta and LinkedIn, the iterate-fast test loop a platform team runs before scaling any shared workflow, cutting CPA 25%.
- **Collapsed five disconnected tools** (Salesforce, Adobe Analytics, GA, Google Tag Manager) into one closed-loop reporting system instead of five separate ones.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- **Fed voice-of-customer signal to product** from an 8-client, 8-person-team portfolio (\$15K-\$90K/month per client), the qualitative input a platform team weighs alongside the metrics.
- **Cut client churn 50%** through one operating playbook built to serve multiple clients' competing priorities instead of a separate fix per account.

PROJECTS

SwipeHire

- **Built an AI job-matching platform** (Python, OpenAI API, React) zero-to-one, designing the matching logic's own evaluation checks and eligibility-aware safeguards before onboarding 50+ early users.
- **Owned the analytics stack alone** (GA4, GTM, event tracking, funnel dashboards), running 8+ A/B tests and 12+ user interviews that lifted activation 25%.
