SUMMARY

Operator who drives a Founder's highest-priority initiatives **end-to-end**, shipping a working v1 instead of a third meeting. Runs PriceKeel, a B2B SaaS pricing startup, as its Founder/CEO, carrying the product, the pilots and the fundraising narrative at once from zero, while holding P&L and revenue targets as Strategic Marketing III at Applied Materials, where repetitive analysis already runs AI-first on Claude agents. At Sensata, took over an ad-hoc margin program with no real owner and brought operational rigour to it, scaling the fix into a company-wide playbook and recovering $700K+ in margin in 2 quarters. Runs the central OKR cadence and weekly and quarterly business reviews that give leadership real-time visibility, and is comfortable bridging India teams with US stakeholders across time zones and working hours.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Owns **PriceKeel end to end** as Founder and CEO, building the guardrail engine and audit trail from a blank page, then setting up the CRM, CPQ, forecast and pipeline reviews, and deal-approval process from zero.
- Carries the **fundraising narrative** alongside the product itself, running investor conversations, pilot data and the financial model as one story, not a handoff to someone else.
- Running **pilots** with early B2B SaaS customers and feeding Finance and RevOps feedback straight into the next release, the single-owner motion a founder's-office initiative runs on.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Converted a **manual, repetitive analysis workflow** into one run by agents built on Claude, the AI-first rebuild a founder's highest-leverage workflows need.
- Partners across **Sales, Engineering and Accounts** to size the semiconductor market, turning scattered field input into one brief leadership can act on.
- Carries **P&L and revenue targets** for the role and builds the competitive, value-based pricing and forecasting models that track the market's inflection points as it grows.
- Builds the **leadership decks** and runs the OKR cadence behind weekly and quarterly business reviews that give the Founder same-day visibility into what is working.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Took over an **ad-hoc margin program** with no real owner and built Bleeders and Leakers from scratch: ranked 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines.
- Scaled the **playbook across business units** the way a central Centre of Excellence (COE) would, recovering $700K+ in margin in 2 quarters and lifting distributor and channel-partner margins from 53% to 61%, a fix that held past the first cycle.
- Shaped **AP26 revenue models** and site-transition strategy directly with senior executives, writing the leadership decks and running the OKR reviews that kept the business aligned.
- Promoted from Product and Growth Marketing to **Pricing Lead in 10 months** after proving the margin program could run without daily oversight, a bias for shipping this seat rewards.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned the **cross-functional product roadmap** for sensor solutions across 3 regions, managing a 100+ feature backlog with Engineering in Agile.
- Delivered **$2M+ in first-year revenue** owning GTM for new sensing products across North America and Europe, from positioning through launch.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed **marketing team members** and owned $100K/month in budgets across multiple business units, approved by the leadership team.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Directed an **8-person team running 8 client P&Ls** with per-client budgets of $15K-$90K/month, carrying full revenue targets.
- Cut **client churn 50%** by rebuilding account strategy and retention mechanics at the root across US-facing enterprise accounts.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Bridged **regional, localization and analytics teams** as the main liaison, keeping cross-functional execution aligned across markets.
