# ADHITHYA ROKHITH BHASKAR

**Pricing & Affordability Strategy | Fee Structure, Margin Recovery, P&L Impact | SQL, Excel, AI-Forward Analytics (Claude)**

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

## SUMMARY

**Pricing strategist** who recovered $700K+ in margin in 2 quarters at Sensata by finding where fee structure quietly cost money. Raised distributor margins from 53% to 61% in that same program, the closest analog to DoorDash's own affordability lever. Structured the FY2026 Bleeders and Leakers model that turned a $627M target into 1,200 prioritized pricing opportunities, surfacing $433M in margin gaps for leadership. Runs CRM, CPQ, forecast reviews and deal approvals as founder of PriceKeel, with an audit trail Finance can read, and automates repetitive pricing analysis with AI agents built on Claude at Applied Materials.

## SKILLS

**Pricing & Monetization:** Fee Structure & Affordability Modeling, Pricing as a Growth Lever, Margin Recovery, Discount Governance, Deal Approvals, Channel/Distributor Pricing, Price Elasticity, Value-Based Pricing, Competitive Benchmarking
**Analytics:** SQL, Excel (advanced), A/B & Multivariate Testing, Forecasting Models, Power BI, Tableau, Regression, Cohort & Funnel Analysis
**Revenue Operations:** CRM & CPQ Configuration, Forecast & Pipeline Reviews, Deal Desk, Win-Rate & Pipeline-Stage KPIs
**Leadership & Operating:** P&L and Revenue Targets, Cross-Functional Finance/Analytics/Product Partnership, Operating Cadence (OKRs), AI Agents (Claude) for Workflow Automation

## EXPERIENCE

**Founder & CEO, PriceKeel** May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing: designed a guardrail engine that reads live discount exceptions and recommends an explainable fee guardrail learned from each company's own closed-won and closed-lost deals.
- Paired every pricing decision with **audit-trail evidence** Finance can read, while running live customer pilots, raising the company's first funding round and owning CRM, CPQ, forecast reviews and deal approvals solo.

**Strategic Marketing III, Applied Materials** Jun 2026 - Present

- Modeled **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing stayed ahead of demand instead of reacting to it.
- Mapped **forecasting and market-sizing models** across multiple product groups, carrying P&L and revenue targets and running the weekly and quarterly reviews against them.
- Automated repetitive **pricing and forecasting analysis with AI agents built on Claude**, the same builder's instinct this role asks for, pointed at fee and affordability modeling.

**Pricing Lead, Sensata Technologies** Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business), carrying P&L and revenue targets by reading the full P&L, order and pricing data across multiple product lines.
- Structured the FY2026 **Bleeders and Leakers** Power BI model, turning a $627M target and 1,200 untracked pricing opportunities into a prioritized plan that surfaced $433M in margin gaps, then recovered $700K+ in margin in 2 quarters running the negotiations it pointed to.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, informed by benchmarking 10+ key players that also drove +12% YoY revenue and +8% market share.
- Drove **AP26 revenue modeling** with senior executives and multimillion-dollar customer quotes, the same Finance-partnership motion this role runs on fee forecasts.

**Product & Growth Marketing, Sensata Technologies** Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel decisions, driving $2M+ first-year revenue.
- Tracked **KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, identifying adoption signals that lifted feature adoption 18%.
- Ran **30+ customer interviews** with OEMs and distributors to find affordability and value-perception pain points, feeding insights that lifted CSAT 22%.

**Digital Marketing Manager, Plug Power** Oct 2022 - Jul 2023

- Presented **budget forecasts of $100K/month** across multiple business units to the leadership team for approval, then ran bid-strategy A/B testing that delivered -25% CPA.
- Analyzed **50+ inbound campaigns and 15+ A/B tests**, tying results to measurable conversion gains and a 50% cut in cost per lead.

**Customer Success Manager, Pixis (AI Platform)** Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn 50% through proactive account strategy and vertical playbooks.
- Hired and managed an **8-person team**; used Amplitude and Tableau across 30+ campaigns to lift ROAS 40%, reporting recommendations to senior management.

**Senior Digital Marketing Analyst, GenY Medium** Jan 2020 - Jun 2021

- Streamlined **dashboards and database audits** that lifted data accessibility 30%, the same read-the-data-first habit behind every pricing model since.
- Lifted a **B2B e-commerce startup's conversion rate 36% and revenue 25%** through targeted analysis.

## PROJECTS

**SwipeHire**

- Shipped **SwipeHire** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP and modeled 3 subscription pricing tiers from competitor benchmarks and willingness-to-pay signals.
- Ran **8+ A/B tests** and 12+ user interviews that lifted activation 25%, the same test-every-idea discipline behind DoorDash's own fee experimentation.
