- Built the **audit trail** that gives Finance one clean, contract-level record of every discount decision, the same ARR-integrity habit a reconciled revenue number needs.

- Builds **forecasting and market-sizing models** across multiple product groups, the same pipeline and attainment math a growing revenue team needs to trust.

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across 3 regions and 20 product lines, carrying P&L and revenue targets.
- Shipped the FY2026 Bleeders and Leakers **Power BI dashboard**: 1,200 opportunities against a $627M target, with win rate, avg $/win and stage distribution broken out by salesperson and product line.
- Reconciled the **CRM pipeline data** feeding that dashboard, catching mismatched product-line tags and stale stages before they double-counted an opportunity or skewed a quarter's number.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders and Leakers program, building fixes on competitive gaps and documented customer willingness to pay in multimillion-dollar customer quotes.
- Raised distributor and channel-partner margins **from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, partnering with executives on contract terms.
