EXPERIENCE

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Aligns **Sales, Engineering and Accounts** into one semiconductor market view, the same multi-team alignment a 0-to-1 partner function needs to keep every side reading from the same plan.
- Builds **value-based pricing models** that forecast market inflection points, turning technical complexity into the crisp, buyer-credible read partner stakeholders need to trust fast.
- Automates repetitive analysis with **AI agents built on Claude**, freeing time for the cross-team coordination a partner marketing build runs on.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Rebuilt **distributor and channel-partner margins** from 53% to 61% in under two quarters by repricing parts sold through distribution: the same hold-a-partner-org-to-a-plan work this role calls a closer's job.
- Turned **1,200 pricing opportunities** against a \$627M target into one Power BI dashboard with pipeline funnel, regional scorecards and win-rate tracking, the same partner-sourced pipeline attribution and reporting this role owns end to end.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue, the same end-to-end joint-launch ownership this role calls a launch moment.
- Translated technical specs into **customer value propositions**, lifting conversion 15% on priority launches by writing the crisp, differentiated narrative a joint go-to-market story needs.
- Ran **30+ customer interviews** with OEMs and distributors to find exactly where partners and buyers got stuck, insights that raised CSAT 22%.
- Built **sales enablement** (decks, case studies) for 50+ reps, lifting win rates 30%, the same enablement-at-scale instinct behind this role's campaign-in-a-box kits.
- Analyzed competitor and customer patterns across **EMEA and the US**, surfacing revenue opportunities in purchasing behavior and competitor market share.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Owned **\$100K/month budgets** across multiple business units, building the plans and forecasts presented to the leadership team for approval.
- Ran **customer research** that lifted conversion 20% and cut CPA 15%, translating what confused prospects into copy and targeting that removed the confusion.
- Raised **organic search visibility 35%** by closing keyword-strategy gaps and building SEO partnerships that extended reach beyond owned channels.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Led an **8-person team running 8 client accounts** with per-client budgets of \$15K-\$90K/month, carrying P&L and revenue targets, the same external-stakeholder accountability this role holds partner orgs to.
- Cut **client churn 50%** through proactive account strategy, channel diversification and vertical playbooks.
- Kept **enterprise case studies and sales materials** current, supporting a 20% improvement in sales team performance, the same partner-enablement-content discipline this role scales into co-branded assets.

PROJECTS

SwipeHire

- Built an **AI job-matching platform** (Python, OpenAI API, React) zero-to-one with no existing playbook: wrote the PRD, scoped the MVP, shipped auto-tailored resumes and visa-aware matching, and onboarded 50+ early users.
- Instrumented the **GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards) alone, running 8+ A/B tests and 12+ user interviews that lifted activation 25%, the same build-the-system-from-nothing instinct an autonomous self-starter brings to ambiguity.
