SUMMARY

Founder of **PriceKeel**, who takes an ambiguous, unscoped problem and turns it into a shipped system with clear owners and timelines. Found the root cause behind a 100+ item backlog slipping across 3 regions at Sensata Technologies, then built the Agile process that cut time-to-market 20% without needing formal authority over the teams involved. Recovered **$700K+ in margin in 2 quarters** at Sensata through fast, targeted pricing experiments, and now carries P&L targets as Strategic Marketing III at Applied Materials, running OKRs, leadership decks and weekly reviews. Automates the repetitive parts of that reporting with **Claude AI agents**.
