EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Own the **audit trail** that documents every pricing decision with evidence Finance can audit, standing up deal approvals end to end for early customers.
- Running **pilots** with early customers and raising PriceKeel's first round, selling the guardrail engine against legacy CPQ and deal-desk tooling.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for Applied Materials' semiconductor equipment business, forecasting demand inflection points so ASP and margin stay ahead of cost and competitive swings across multiple product groups.
- Build **forecasting and market-sizing models** across multiple technical product groups, partnering with Sales, Engineering and Accounts to turn field and competitive input into one pricing view, carrying P&L and revenue targets.
- Automate repetitive pricing and margin analysis with **AI agents built on Claude**, cutting the manual load behind the dashboards and executive summaries a BU pricing function runs every cycle.

- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters, repricing parts sold through distribution after a cost and competitive review.
- Built the FY2026 Bleeders and Leakers **Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, surfacing $433M in margin gaps for leadership to prioritize by product line.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes alongside senior executives, aligning Pricing, Finance and Sales on recommendations that protected margin through cost changes.
- Drove **+12% YoY revenue** and +8% market share via price realignment benchmarked against 10+ key competitors, then presented the business case to BU and Finance leadership.
