- Builds **competitive, value-based pricing** for a fast-moving market, forecasting demand inflection points ahead of the roadmap instead of reacting to them after the fact.
- Automates repetitive analysis with **AI agents built on Claude**, an agentic workflow that frees more time for product strategy and cross-functional tradeoffs.
- Carries **P&L and revenue targets** for the role and runs the operating cadence: leadership decks, OKRs, weekly and quarterly business reviews.
