Hiring Team, Hinge Health

At Plug Power I owned paid search end to end across Google Ads and Microsoft Advertising, running my own keyword research and bid strategy and cutting CPA 25% in the process. Owning Hinge Health's largest paid digital channel for enrollments is the same job at a bigger scale, not a different one.

The rest of your basic qualifications map just as directly. I ran 15+ A/B tests on messaging, ad formats and bidding settings at Plug Power, tying every test to a customer-research hypothesis instead of a guess, and closed keyword-strategy gaps that raised organic search visibility 35%. At Pixis I managed per-client paid budgets against acquisition goals across an 8-client portfolio, delivered 3x ROAS in one month for a fashion brand through full-funnel restructuring, and ran the Amplitude and Tableau reporting that lifted ROAS 40% across 30+ campaigns.

Your posting calls out AI-assisted workflows specifically, not as a nice-to-have. I already automate recurring analysis and reporting with AI agents built on Claude at Applied Materials, and I would bring that same habit to the paid media pod's playbooks rather than treat AI as a side project someone else owns.
