EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built an **audit trail** that gives Finance and Deal Desk defensible evidence for every discount decision, plus a guardrail engine that recommends discount limits explainable from each company's own closed-won and closed-lost deals.
- Operate the company's **CRM/CPQ**, forecast and pipeline reviews, and deal approvals end to end, the operational layer a monetization-measurement function depends on to stay accurate.
- Running **pilots** with early B2B customers and raising the company's first round, stress-testing how an AI-generated pricing recommendation holds up against real deal data before it reaches a decision-maker.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Automated repetitive pricing-analysis work with **AI agents built on Claude**, freeing time for the hypothesis-test-recommend work that actually drives a pricing decision.
- Partner with **Sales, Engineering and Accounts** to turn complex field and technical input into one pricing strategy and forecasting model across multiple product groups, carrying P&L and revenue targets for the role.
- Forecast demand inflection points for a fast-growing **semiconductor equipment market**, building the competitive, value-based pricing that keeps packaging ahead of it instead of behind it.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Shipped the FY2026 Bleeders and Leakers **Power BI dashboard**, tracking 1,200 pricing opportunities at scale against a $627M target across 3 regions and 4 product families with pipeline funnel, regional scorecards and win-rate views, surfacing $433M in margin gaps for leadership to prioritize.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders and Leakers program on evidence, not instinct: competitive gaps and customer willingness-to-pay data identified the optimization opportunity, Sales and Finance validated it, then it shipped.
- Raised distributor and channel-partner margins **from 53% to 61%** in under 2 quarters by repricing parts sold through distribution.
- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets and partnering with senior executives on AP26 revenue models and multimillion-dollar customer quotes.
- Drove **+12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Built **performance-metrics frameworks in SQL and GA4** across 50K+ connected industrial devices, identifying high-intent cohorts and adoption signals that lifted feature adoption 18%.
- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction ahead of launch.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **$100K/month marketing-budget forecasts** across multiple business units to the leadership team for approval.
- Automated the **Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting across every active campaign.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn 50% through proactive account strategy.
- Used **Amplitude and Tableau** on user behavior across 30+ campaigns, lifting campaign ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands and lifted a B2B startup's revenue 25% by rebuilding catalog feeds and running database and SEO audits.
- Ran database audits and **built dashboards**, improving data accessibility 30%, plus SEO site audits across backlinks, keywords and internal linking.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** (Python, OpenAI API, React) zero-to-one and owned its analytics stack (GA4, funnel dashboards, 8+ A/B tests), the same dashboard-and-experiment muscle a pricing-analytics function runs on.
