- Built the **guardrail engine** behind it: an explainable discount recommendation and P&L read learned from each company's own closed-won and closed-lost deals, the same deal-structuring judgment a GTM Finance seat applies to every commercial proposal.
- Runs the company's own **CRM, CPQ, forecast and pipeline reviews and deal approvals** end to end, plus the Finance audit trail, while running pilots and raising its first round.

- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, keeping the P&L impact consistent across the channel.
- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, with pipeline funnel, win rate, avg $/win and stage distribution, surfacing $433M in margin gaps for leadership to prioritize.
