ADHITHYA ROKHITH BHASKAR

Pricing Analyst | Rate-Setting Analysis, Profitability Tracking, Financial Modeling | Professional Services

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Pricing analyst and founder who recovered $700K+ in margin in two quarters at Sensata by building a profitability dashboard across 1,200 opportunities. Tracks client-level P&L and runs the audit trail behind every pricing decision as founder of PriceKeel, and builds financial and forecasting models at Applied Materials. MS in Marketing Analytics and an Advanced Pricing Certification from Simon Business School.

SKILLS

Pricing & Rate Setting: Annual Billing Rate-Setting Support, Alternative-Fee Proposal Estimates, Discount Governance, Deal Approvals, Margin Recovery, Channel/Distributor Pricing, Rebate & Contract Pricing, Value-Based Pricing
Financial Modeling & Profitability Tracking: Client/Matter Profitability Modeling, Financial Models, Market & Competitor Pricing Analysis, Forecast & Pipeline Reviews, Pricing Databases & Dashboards
Analytics & Reporting: Excel (advanced), SQL, Power BI, Tableau, Regression, Cohort & Funnel Analysis, Reports & Dashboards
Leadership & Operating: P&L and Revenue Targets, Cross-Functional Stakeholder Coordination, Leadership & Board Decks, Negotiation

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B deal pricing that reviews a live discount exception and recommends an explainable guardrail learned from each company's own closed-won and closed-lost deals, the same rate-setting judgment call this role supports for Partners.
- Documented the **audit trail** that gives Finance evidence behind every pricing exception, the same documentation discipline an alternative-fee proposal estimate is measured on.
- Runs the company's **deal approvals, CRM/CPQ and forecast and pipeline reviews** end to end while running pilots with early customers.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing market and forecasts its inflection points, the same market and competitor pricing analysis this role runs ahead of an annual rate review.
- Builds **financial and forecasting models** across multiple product groups, carrying P&L and revenue targets for the role.
- Automates repetitive pricing analysis with **AI agents built on Claude**, cutting manual work out of the recurring reports a pricing database and dashboard program depends on.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 Bleeders and Leakers **Power BI pricing dashboard** ranking 1,200 pricing opportunities against a $627M target across 3 regions and 4 product families, surfacing $433M in margin gaps for leadership, the same reporting and dashboard discipline this role owns for the firm's pricing database.
- Recovered **$700K+ in margin in 2 quarters** by evaluating fee and discount structures against competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters, repricing and documenting the new logic for governance review, the same rate-setting write-up this role supports annually.
- Shaped **multimillion-dollar customer quotes** and AP26 revenue models with senior executives and Finance, direct practice for building alternative-fee proposal estimates.
- Drove **+12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM pricing and channel strategy** for new sensing products across North America and Europe, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction before launch.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **budgets of $100K/month** across multiple business units to leadership for approval, building the financial models and forecasts behind them.
- Led bid optimization and A/B testing across **paid channels**, delivering -25% CPA while automating the Mar-Tech stack (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop, data-quality reporting.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **client-level P&L and profitability tracking** for an 8-client, $15K-$90K/month portfolio, the same per-engagement profitability discipline a matter-profitability model runs on, cutting client churn 50%.
- Used **Tableau and Amplitude** on user behavior across 30+ campaigns, lifting campaign ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Audited **databases and built dashboards**, improving data accessibility 30% for cross-functional stakeholders.
- Lifted a **B2B e-commerce startup's conversion rate 36%** and revenue 25% through SEO audits and database cleanup.

PROJECTS

Pricing Optimization Model

- Developed an **R-based pricing optimization model** using linear regression to forecast rate elasticity and identify profit-maximizing billing rates across segments, the same elasticity logic an annual rate-setting review runs on.
