SUMMARY

Technical storyteller who turns engineering and pricing work into content builders actually read. Built SEO content programs that lifted organic visibility 35% at Plug Power and ran backlink, keyword and internal-linking audits at GenY Medium, the distribution discipline technical content needs across developer and engineering communities. Partners with Engineering, Sales and employer-brand teams to turn machine-learning-driven forecasting, pricing infrastructure and deep technical problems into stories technical talent follows, running 30+ interviews with OEMs, distributors and subject-matter experts for the depth and trust a technical writer needs before drafting a word. Strategic Marketing III at Applied Materials today, automating recurring research and drafting with AI agents built on Claude. MS in Marketing Analytics (STEM), Simon Business School.

EXPERIENCE

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Sized the **semiconductor market** with Sales, Engineering and Accounts and built the forecasting models leadership uses to plan, the same technical-source-to-story pipeline this role runs for engineering content.
- Automates recurring research and drafting with **AI agents built on Claude**, carries P&L and revenue targets, and runs OKRs with weekly and quarterly business reviews.
- Builds **leadership decks** that explain multiple product groups' forecasting models to non-technical stakeholders, the same simplify-without-losing-accuracy work this role does for engineers' architecture stories.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Turned the FY2026 **Bleeders and Leakers Power BI dashboard** into the story leadership used to prioritize $433M in margin gaps across 1,200 opportunities, the same editorial bar, numbers that hold up under scrutiny, a technical audience expects.
- Shaped **multimillion-dollar customer quotes** and site-transition strategy with senior executives, turning competitive benchmarking across 10+ players into the narrative that justified a price realignment.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Interviewed **30+ engineers, OEMs and distributors** to find the pain points behind a new sensing-product launch before writing a word of positioning, the same source-first habit this role asks for with software engineers.
- Translated sensing-platform features into **customer value propositions**, lifting conversion 15% on priority launches, the exact translation this role runs for APIs and ML models.
- Built **sales enablement content** (decks, case studies) for 50+ reps, lifting win rates 30%, and partnered with Engineering to keep every technical claim accurate.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Raised **organic search visibility 35%** by closing keyword-strategy gaps and building SEO partnerships, the same organic-channel distribution instinct developer-platform content needs.
- Owned marketing budgets of **$100K/month** across multiple business units, building the plans and forecasts presented to leadership for approval.
- Rebuilt the **WordPress and Pardot lead flow**, cutting cost per lead 50%, and supported 15+ A/B tests across 50+ inbound campaigns.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Kept **enterprise case studies and sales materials** current across an 8-client media portfolio, supporting a 20% improvement in sales team performance.
- Used **Amplitude and Tableau** to interrogate campaign data directly across 30+ campaigns, turning findings into write-ups that lifted ROAS 40%.
- Led an **8-person team** and reported recommendations to senior management, feeding voice-of-customer findings back into product and content decisions.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Ran **SEO site audits** (backlinks, keywords, internal linking, content) that raised organic reach, the hands-on editorial-SEO work this role runs day to day.
- Audited databases and dashboards, improving **data accessibility 30%**, and served as the main liaison between regional marketing managers, localization and analytics teams.
- Lifted a B2B e-commerce startup's **conversion rate 36%** and revenue 25% by closing gaps its signup-to-purchase funnel exposed.

PROJECTS

SwipeHire

- Crafted **ICP and positioning** for an AI job-matching platform after competitor teardowns, the same translate-technical-work-into-audience-ready-copy skill this role runs daily, shipping copy and content that lifted activation 25% across 50+ early users.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** through Safran's TAM/SAM/SOM, analyzing 150+ facilities and 10+ competitors, then wrote the positioning brief for 3 B2B product lines that leadership signed off on, the same research-to-narrative handoff this role needs across engineering and recruiting stakeholders.
