Hiring Team, Hyperbound

Your posting is explicit that this is not a strategy-only seat: you want someone who builds the ads, emails and landing pages themselves and owns the CAC and pipeline numbers that come out of them. That is exactly how I ran paid media at Plug Power, where I directly managed Google Ads, Microsoft Ads, Meta and LinkedIn Ads campaigns across $100K/month in budgets end to end: audience targeting, bid strategy, creative testing and the lead-flow automation on the back end that cut cost per lead 50%.

At Pixis I ran an 8-client, $15K-$90K/month B2B SaaS and D2C paid-media portfolio, tying lead quality and pipeline contribution back to the budget calls rather than chasing volume alone. At Sensata I translated technical product features into customer-facing positioning and built the KPI frameworks in SQL and GA4 that product marketing, sales and leadership all pulled from, the same close loop your req describes across Sales, Field Marketing and Product Marketing.

The content and SEO half is familiar too. I closed keyword-strategy gaps and built SEO partnerships that raised organic visibility 35% at Plug Power, and I now automate the repetitive parts of campaign reporting with AI agents built on Claude at Applied Materials, the same comfort with AI tooling that shows up in how your team talks about SEO/AEO and reporting automation.

I would like to bring that hands-on paid-and-content discipline to Hyperbound's growth motion. Proof trail at adhi-growth-ai.vercel.app/ref/hyperbound.
