EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built PriceKeel's **CRM, CPQ configuration and deal-approval workflow** from zero, the same founding build-the-engine mandate this role runs with no system to inherit.
- Runs the company's **forecast and pipeline reviews** end to end and tracks forecast accuracy against target, catching risk before it shows up in the number.
- Created the **audit trail** that gives every pricing decision an owner and evidence Finance can audit, the settle-it-and-it-stays-settled discipline a shared source of truth needs.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Automates repetitive revenue analysis daily with **AI agents built on Claude**, the agent-native habit this role is built around.
- Builds **forecasting and market-sizing models** across multiple product groups, tracking inflection points so the number holds up before the quarter closes.
- Carries **P&L and revenue targets** and builds leadership decks, running **OKRs** with weekly and quarterly business reviews, the operating cadence a scaling GTM motion needs instrumented from day one.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 **Bleeders and Leakers Power BI dashboard**, a single source of truth covering 1,200 opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, with win rate, avg $/win and stage distribution by salesperson.
- Recovered **$700K+ in margin in 2 quarters** by settling pricing disputes from the data instead of precedent, the every-number-has-an-owner discipline this role is built to enforce.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters, the closest analog to attributing co-sell and channel-sourced revenue correctly.
- Ran **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, the cross-functional number-defending this role does with Finance and partners.
- Presented **leadership decks** and ran **OKRs** with weekly and quarterly business reviews, turning pipeline signal into a forecast leadership could act on.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Designed **KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, identifying high-intent cohorts that lifted feature adoption 18%, the raw-data-to-clean-dataset work a founding build starts from.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Automated the **Mar-Tech stack (Salesforce, Adobe Analytics, GA, Google Tag Manager)** for closed-loop reporting, the admin-level systems fluency a data foundation needs before agents can act on it.
- Owned **marketing budgets of $100K/month** across multiple business units, building the forecasts presented to leadership for approval.
- Cut **cost per lead 50%** by automating the WordPress and Pardot lead flow, tying SEM performance to MQL quality and stage 1 opportunities.

- Lifted a B2B e-commerce startup's **conversion rate 36%** and revenue 25%.
