EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reads a live discount exception and runs it through a guardrail engine, turning pricing strategy into a tactical, system-level check before a deal closes.
- Built the **audit trail** that gives Finance verifiable evidence and risk-governance sign-off for every discount call, the same control discipline a pricing-execution role has to enforce inside a live pricing system.
- Run the company's **CRM/CPQ**, deal approvals and forecast/pipeline reviews end to end while piloting with early B2B customers and raising the company's first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing semiconductor equipment market, forecasting its inflection points so pricing strategy stays validated against real demand shifts, not stale specs.
- Partner with **Sales, Engineering and Accounts** on forecasting and market-sizing models across multiple product groups, carrying P&L and revenue targets for the pricing view those models drive.
- Automated repetitive pricing analysis and monitoring with **AI agents built on Claude**, cutting manual checks out of recurring number-crunching so more time goes to the actual pricing exception.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-\$100M business) across multiple product lines, carrying P&L and revenue targets and enforcing pricing governance end to end.
- Recovered **\$700K+ in margin in 2 quarters** running the Bleeders & Leakers program, building the audit trail and exception logic behind every repriced deal.
- Shipped the FY2026 Bleeders & Leakers **Power BI dashboard**: 1,200 pricing opportunities against a \$627M target across 3 regions, with automated anomaly flags surfacing \$433M in margin gaps for leadership to prioritize.
- Raised distributor and channel-partner margins **from 53% to 61%** in under 2 quarters, validating the new pricing logic held past the first repricing pass and driving +12% YoY revenue.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel decisions, driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to validate willingness to pay and surface pricing friction before launch.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- Directed **marketing budgets of \$100K/month** across multiple business units, building the plans and forecasts presented to leadership for approval, and cut CPA 25% through bid optimization.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, \$15K-\$90K/month portfolio, cutting client churn 50% through proactive account strategy.
