SUMMARY

Built the **operating cadence** Applied Materials runs its P&L and financial forecasts against: OKRs, weekly and quarterly business reviews. Runs the CRM, forecast reviews and deal approvals end to end as founder of PriceKeel, and built Sensata's Bleeders & Leakers dashboard (1,200 opportunities against a $627M target, $433M in margin gaps surfaced) that gave leadership one view across 3 regions and 20 product lines. Treats AI agents built on Claude as a default part of the workflow, not a pilot.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Act as the **operational backbone** for a pre-revenue company from zero: run the CRM and CPQ, forecast and pipeline reviews, and deal approvals a BizOps seat would own end to end for a Product or GTM org.
- Designed a **guardrail engine for discount exceptions** inside the deal platform, turning an ambiguous pricing call into a structured framework learned from each company's own closed-won and closed-lost deals.
- Set up the **audit trail Finance can review** for every pricing and financial decision, selling the fix directly to RevOps, Sales leadership and Finance against legacy CPQ and deal-desk tooling.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Own the **operating rhythm** for a multi-group semiconductor business: build forecasting and market sizing models across multiple product groups, then review them in weekly and quarterly business reviews against OKRs.
- Automate repetitive analysis work with **AI agents built on Claude**, using AI as a default part of the job rather than an experiment.
- Carry **P&L and revenue targets** for the role, partnering with Sales, Engineering and Accounts to turn field and technical input into one market view, and build the leadership decks that drive executive decisions.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, giving leadership one view of win rate, stage distribution and regional scorecards.
- Surfaced **$433M in margin gaps** for leadership to prioritize by salesperson and product line, then recovered $700K+ in margin in 2 quarters running the negotiations the dashboard flagged.
- Led a **cross-functional project** with senior executives spanning Finance, Sales and Engineering on AP26 revenue models, site transition strategy and multimillion-dollar customer quotes.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, driving +12% YoY revenue and +8% market share.
- Ran the **operating cadence** for a multi-$100M business unit: leadership decks, OKRs, and weekly and quarterly business reviews that kept the team accountable to its targets.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving $2M+ first-year revenue.
- Developed **KPI frameworks in SQL and GA4** on 50K+ connected industrial devices, surfacing adoption signals that lifted feature adoption 18%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **$100K/month marketing budgets** across multiple business units, building the plans and forecasts leadership approved.
- Rebuilt the **WordPress and Pardot lead flow**, cutting cost per lead 50% and feeding stage 1 opportunities straight into the pipeline.
- Hired and managed the marketing team, building **leadership decks** and running OKRs with weekly and quarterly reviews.

Customer Success, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 clients with per-client media budgets of $15K-$90K/month.
- Cut **client churn 50%** through proactive account strategy and channel diversification, reporting recommendations to senior management.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Audited databases and built **dashboards**, improving data accessibility 30%, and ran SEO site audits across backlinks, keywords and content.

PROJECTS

SwipeHire

- Built an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, and onboarded 50+ early users using AI tools as a default part of the build, not an experiment.
- Ran the **GTM and analytics stack** (GA4, GTM, funnel dashboards), running 8+ A/B tests and 12+ user interviews that lifted activation 25%.
