EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded PriceKeel to run **deal approvals, discount governance and CRM/CPQ** end to end: a fast path for standard deals and sharper judgment on pricing exceptions, discounting and contract structure for everything else.
- Built the **audit trail** that gives Finance evidence for every pricing decision, plus a guardrail engine that learns from a company's own closed-won and closed-lost deals, the same commercial-policy tooling this seat is asked to build.
- Running **pilots** with early B2B customers and raising the first round, taking a **0-to-1** deal-governance process live before proving it scales past one founder.
- Next build: a **margin layer** on top of the guardrail engine, stress-tested against higher deal volume before it ships.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **forecasting models** across multiple product groups, the pipeline-coverage input leadership bets on before the quarter reports back.
- Partners with **Sales, Engineering and Accounts** to turn fragmented field input into one market view, closing cross-functional handoff gaps before they reach a quote.
- Automates repetitive revenue analysis with **AI agents built on Claude**, and runs **OKRs** with weekly and quarterly business reviews against P&L and revenue targets.
- Builds **leadership decks** that keep the forecast narrative consistent across Sales, Finance and Accounts.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Shipped the FY2026 **Bleeders and Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions and 20 product lines, tracking win rate, avg $/win and stage distribution by salesperson and product line.
- Recovered **$700K+ in margin in 2 quarters** and raised distributor and channel-partner margins from 53% to 61% by repricing parts sold through distribution.
- Surfaced **$433M in margin gaps** for leadership to prioritize, then built a BU-wide price-increase model flagging line items where a change could lift profitability 50%+.
- Shaped **AP26 revenue models** and multimillion-dollar customer quotes with senior executives, the same non-standard commercial-structuring work a deal desk reviews.
- Drove **+12% YoY revenue and +8% market share** via price realignment benchmarked against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Produced **sales enablement** (decks, case studies) for 50+ reps, lifting win rates 30%, the ramp-time problem this seat is asked to shrink.
- Owned **GTM for new sensing products** across North America and Europe, driving $2M+ first-year revenue.
- Developed **KPI frameworks** in SQL and GA4 across 50K+ connected devices, the system-of-record discipline behind every number a dashboard reports.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **$100K/month budgets** across multiple business units, building plans and forecasts presented to leadership for approval.
- Automated the **WordPress and Pardot lead flow**, cutting cost per lead 50% and tying SEM to MQL quality and stage 1 opportunities.
- Led customer research that drove a **20% increase in conversion rate** and a 15% reduction in CPA, feeding capacity and spend decisions back to leadership.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn 50% through proactive account strategy.
- Used **Amplitude and Tableau** across 30+ campaigns to lift ROAS 40%, the dashboard-and-forecast discipline this seat extends to revenue.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Built dashboards that lifted **data accessibility 30%**, the reporting discipline behind every number that has to survive scrutiny.
- Ran **database audits** across regional teams, the data-integrity habit now applied to pipeline and quote fields.

PROJECTS

SwipeHire

- Shipped an AI job-matching platform **zero-to-one**, modeling 3 subscription pricing tiers from competitor benchmarks and willingness-to-pay signals, the same 0-to-1-then-1-to-10 build this seat asks for.
- Ran the GTM and analytics stack end to end: **8+ A/B tests** and 12+ user interviews that lifted activation 25%.
