EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing: designed the guardrail engine that recommends an explainable discount boundary learned from each company's own closed-won and closed-lost deals, the same packaging and value-metric judgment behind billing for variable AI usage.
- Built the **audit trail** that gives Finance and RevOps leadership an explainable record behind every pricing exception, the admin-trust and controls discipline enterprises need before approving more AI spend across teams.
- Set up and run the company's **CRM, CPQ and deal approvals** solo end to end, and am running pilots with early customers while raising the company's first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing keeps pace with demand, the same value-metric call behind packaging a usage-based product for experimentation and predictable spend.
- Build **forecasting and market-sizing models** across multiple product groups while carrying P&L and revenue targets for the role.
- Automate repetitive analysis work with **AI agents built on Claude**, hands-on practice with the AI tooling this role expects candidates to have built or experimented with.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders & Leakers program, modeling unit economics deal by deal against competitive gaps and customer willingness to pay.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, a packaging change customers adopted because the logic behind it was explainable.
- Built the **FY2026 Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, surfacing $433M in margin gaps for leadership to prioritize.
- Drove **+12% YoY revenue and +8% market share** via price realignment informed by competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, including pricing and channel structuring, driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to pressure-test willingness to pay ahead of launch, the same customer-evidence habit behind setting a usage metric that growing teams will not fight.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Owned **marketing budgets of $100K/month** across multiple business units, building the plans and forecasts presented to leadership for spend approval.
- Led **bid optimization and A/B testing** across Paid Search and Paid Social, delivering -25% CPA.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts with per-client budgets of $15K-$90K/month, cutting client churn 50% through proactive account strategy.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Rebuilt **Google Merchant Center and Meta catalog feeds**, delivering 16x ROAS for D2C e-commerce brands.

PROJECTS

SwipeHire

- Founded an **AI job-matching platform** (Python, OpenAI API, React) zero to one: wrote the PRD, scoped the MVP, and modeled 3 subscription pricing tiers from competitor benchmarks and willingness-to-pay signals, the same "made the pricing and growth decisions yourself" build this role is looking for.
