EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Built a **discount approval matrix and pricing guardrail engine** that reads a live discount exception and recommends a guardrail learned from each company's own closed-won and closed-lost deals, so a non-standard deal gets structured and approved in hours, not days.
- Designed the **margin model and Finance-auditable approval record** that scores deal margin before it reaches final sign-off, giving Sales, Finance and RevOps one shared view of every exception.
- Set up and runs **quote-to-cash across the company's own CRM and CPQ**, forecast and pipeline reviews, and deal approvals, selling that same deal-desk discipline against legacy tooling to RevOps and Sales leadership.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Automates pricing and forecasting analysis with **AI agents built on Claude**, the same instinct an AI infrastructure company needs to pull cycle-time and discount reporting out of manual review.
- Builds **competitive, value-based pricing** for a fast-growing market and forecasts its inflection points, modeling where a guardrail needs to move before demand outruns it.
- Carries **P&L and revenue targets** while building forecasting and market-sizing models across multiple product groups with Sales, Engineering and Accounts, the same cross-team coordination quote-to-cash runs across CRM, CPQ, Legal and billing.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- Led **global pricing strategy** for a multi-\$100M Industrial BU across multiple product lines, carrying P&L and revenue targets and modeling deal margin before every negotiated term went to approval.
- Recovered **\$700K+ in margin in 2 quarters** leading the Bleeders and Leakers program: non-standard deal review built on competitive gaps and each customer's own willingness to pay.
- Rebuilt the **discount approval structure** on parts sold through distribution, raising distributor and channel-partner margins from 53% to 61% in under 2 quarters.
- Shipped the **FY2026 Bleeders and Leakers Power BI dashboard** tracking **win rate, discount levels and cycle time weekly** across 1,200 pricing opportunities against a \$627M target in 3 regions, 4 product families and 20 product lines, surfacing \$433M in margin gaps for leadership.
- Shaped **AP26 revenue models and multimillion-dollar customer quotes** with senior executives through the CRM and CPQ stack, driving +12% YoY revenue and +8% market share from competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- Owned **GTM pricing and commercial terms** for new sensing products across North America and Europe, driving \$2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to pressure-test willingness to pay and contract structure ahead of launch.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

Customer Success Manager, Pixis (AI Platform)

PROJECTS
