ADHITHYA ROKHITH BHASKAR

Pricing & Monetization | Founder, PriceKeel | Pricing Enablement, Markdown Process, Cross-Functional Rollout

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Pricing lead who built the **Bleeders & Leakers dashboard** that recovered $700K+ in margin in 2 quarters at Sensata. That same program turned 1,200 scattered pricing opportunities into one repeatable process and lifted distributor margins 53% to 61%, the same process-and-tooling discipline a pricing-enablement seat runs on. Founder of PriceKeel, building the guardrail logic and audit trail that let a pricing recommendation clear review without a meeting. Strategic Marketing III at Applied Materials today, automating recurring pricing analysis with Claude AI agents while checking every output before it ships. MS in Marketing Analytics, Advanced Pricing Certification.

SKILLS

Pricing & Monetization: Markdown & Promotion Process, Price Testing, Discount Governance, Margin Recovery, Channel/Distributor Pricing, Value-Based Pricing, Customer Quotes, Rebate & Contract Pricing, Competitive Benchmarking
Revenue Operations & Enablement: Cross-Functional Process Rollout & Coordination, Tool & Dashboard Build-Out, CRM & CPQ Configuration, Forecast & Pipeline Reviews, Win-Rate & Stage KPIs, Stakeholder Training
Analytics: Power BI, SQL, Excel (advanced), Python (pandas), R, A/B & Multivariate Testing, Regression, Cohort & Funnel Analysis
Product Marketing & Strategy: Customer-Experience Research, Willingness-to-Pay Research, Market Sizing (TAM/SAM/SOM), GTM Strategy, Competitive Intelligence
Tools: AI Agents (Claude), Salesforce, HubSpot, Jira, Confluence, Notion

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Designed the **guardrail engine**, a rule set that reads each discount exception against a company's own closed-won and closed-lost deals and recommends an explainable guardrail, so routine pricing decisions clear a repeatable process instead of a one-off meeting.
- Set up and runs the company's own **CRM, CPQ, forecast and pipeline process**, the same process-ownership and calendar discipline a pricing-enablement seat runs across Merchandising and Planning.
- Built the **audit trail** that records the human pricing call with evidence Finance can review, while running pilots with early customers and raising the first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing keeps pace with demand.
- Builds **forecasting and market-sizing models** across multiple product groups, partnering with Sales, Engineering and Accounts to turn field input into one shared view.
- Automates repetitive pricing analysis with **AI agents built on Claude**, checking every output before it feeds a recommendation, while carrying P&L and revenue targets.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Owned **global pricing strategy and process** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets.
- Built the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities scored against a $627M target across 3 regions, 4 product families and 20 product lines, with pipeline funnel, win rate, avg $/win and stage distribution, turning an ad hoc review into a **standing pricing-enablement tool** that resolved exceptions by root cause for the whole team.
- Recovered **$700K+ in margin in 2 quarters**, resolving pricing decisions against documented competitive gaps and customer willingness to pay surfaced by that same dashboard.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters, rolling the new pricing process out through distribution partners and training the team on it.
- Shaped **multimillion-dollar customer quotes** with senior executives, building AP26 revenue models and driving +12% YoY revenue and +8% market share through competitively benchmarked price realignment.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, positioning, pricing and channel decisions that drove $2M+ first-year revenue; ran 30+ customer interviews with OEMs and distributors, representing customer experience in pricing and packaging decisions.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Directed **$100K/month budget forecasts** across multiple business units, building the business case and presenting it to the leadership team for approval each quarter.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** across 8 retail and D2C client accounts with $15K-$90K monthly budgets each; cut client churn 50% through proactive account strategy and vertical playbooks built for retail and fashion clients.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds, the same retail price-and-promotion visibility a markdown calendar runs on.

PROJECTS

Safran Market Sizing & GTM (Simon Vision Consulting)

- Headed a **5-consultant team** assessing pricing strategy and the financial feasibility of market entry across 150+ target facilities and 10+ competitors, narrowing TAM/SAM/SOM from 170 facilities to a SAM of 28; presented to Safran leadership.
