SUMMARY

Product marketer who turns **competitor moves into talk tracks a rep can use mid-deal**, not a stale battlecard. At Sensata, drove the competitive benchmarking across 10+ rival suppliers behind a price-realignment play that pushed +12% YoY revenue and +8% market share, then trained and armed 50+ reps with the messaging that lifted win rates 30%. Also owned a sensing-product launch start to finish, positioning through announcement and enablement ($2M+ first-year revenue), and ran 30+ customer interviews that shaped what got built next. Now Strategic Marketing III at Applied Materials, where the Claude AI agents and repeatable workflows I build let a lean team move fast without dropping rigor. MS in Marketing Analytics from Simon Business School.

- Builds the **Claude AI agents and repeatable workflows** that run market and competitive research end to end, the kind of template a growing team needs to keep quality up without adding headcount, while carrying P&L and revenue targets.

- Trained and armed **50+ reps** with the talk tracks, objection handling and case studies behind a new launch, moving win rates 30% company-wide.
- Tracked **competitor moves and customer behavior across EMEA and the US** into field-ready findings, the same loop a live battlecard runs on.

- Built a **Power BI dashboard tracking 1,200 pricing opportunities** against a $627M target across 3 regions, the kind of live tracking a competitive program needs to stay ahead of a deal instead of reacting after it closes.

- Owned the **GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards), running 8+ A/B tests and 12+ interviews that lifted activation 25%.
