SUMMARY

Product marketer who shipped **an AI job-search platform for job seekers** zero-to-one, with auto-tailored resumes and visa-aware matching for 50+ early users. Runs that same audience-insight loop at Sensata, turning 30+ customer interviews into roadmap decisions, compelling narratives and a $2M+ first-year GTM launch, then automates the repetitive side of that analysis as Strategic Marketing III at Applied Materials with Claude AI agents. Pairs it with SQL + GA4 experimentation across 50K+ connected users and an MS in Marketing Analytics from Simon.
