## SUMMARY

Shipped **SwipeHire**, a two-sided AI marketplace for job seekers and employers, zero to one on the OpenAI API. Ran 8+ A/B tests and 12+ user interviews to decide what to build, cut, or double down on, lifting activation 25%. Owned the 100+ feature product roadmap at Sensata (releases 25% faster, time-to-market cut 20%), grounding every call in 30+ customer interviews and SQL/GA4 cohort data across 50,000+ connected devices. Automates repetitive analysis today as Strategic Marketing III at Applied Materials with Claude AI agents, bringing that same AI judgment and bias for action to Thumbtack's two-sided marketplace of local service pros and the homeowners they help care for their homes.

## SKILLS

**Product:** Roadmapping, Backlog Management, PRD Writing, MVP Scoping, Jobs-to-be-Done, Prioritization (RICE/ICE), Agile/Scrum

**Pricing & Monetization:** Value-Based Pricing, Willingness-to-Pay Research, Subscription Pricing Models

## EXPERIENCE

**Strategic Marketing III, Applied Materials** Jun 2026 - Present

- Sizes **the semiconductor market** with Sales, Engineering and Accounts, turning field input into one forecasting view a cross-functional team commits resources against.
- Builds **competitive, value-based pricing** for a fast-growing market, forecasting inflection points so investment stays ahead of demand, not behind it.
- Automates **repetitive analysis with Claude AI agents**, freeing time for the high-leverage, outcome-focused calls a small team has to get right.

**Product & Growth Marketing, Sensata Technologies** Sep 2024 - Jun 2025

- Owned **the product roadmap** for sensor solutions across automotive and industrial segments, carrying a 100+ feature backlog with Engineering in Agile across 3 regions from idea to shipped release 25% faster, cutting time-to-market 20%.
- Ran **30+ customer interviews** with OEMs and distributors to find where the product actually fell short, turning that signal into fixes that lifted CSAT 22%, the same user-centric thinking a two-sided marketplace needs on both the pro and customer side.
- Built **KPI frameworks in SQL and GA4** across 50,000+ connected devices, isolating the high-intent cohorts and adoption signals that moved feature adoption 18%, not just the metrics that looked good in a deck.
- Drove **$2M+ in first-year revenue** by owning GTM end to end for new sensing products across North America and Europe: positioning, pricing, channel and launch.
- Turned **technical features into customer value propositions** a buyer could act on immediately, lifting conversion 15% on priority launches.

**Pricing Lead, Sensata Technologies** Jul 2025 - May 2026

- Surfaced **the highest-impact line items** with a BU-wide Power BI price-increase model, flagging where a pricing change could lift profitability more than 50% so the team chased the moves that mattered, not every one.
- Raised **distributor and channel-partner margins from 53% to 61%** in under two quarters, part of a repricing push that also drove +12% YoY revenue and +8% market share.

**Digital Marketing Manager, Plug Power** Oct 2022 - Jul 2023

- Ran **15+ A/B tests** across Paid Search and Paid Social, cutting CPA 25% with a build-measure-decide loop run weekly, not quarterly.
- Automated **the Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting that flagged what to kill fast.
- Raised **organic search visibility 35%** by closing keyword-strategy gaps and building SEO partnerships.

**Customer Success Manager, Pixis (AI Platform)** Jul 2021 - Sep 2022

- Fed **voice of customer straight to product**, reporting recommendations to senior management from an 8-client, $15K-$90K-per-month portfolio carrying P&L and revenue targets.
- Cut **client churn 50%** through proactive account strategy and channel diversification, the same retention-first instinct a fulfillment-side marketplace role runs on.
- Delivered **3x ROAS in one month** for a leading fashion brand via full-funnel restructuring: shopping feed cleanup, smart bidding, creative refresh and lookalike expansion.

**Senior Digital Marketing Analyst, GenY Medium** Jan 2020 - Jun 2021

- Lifted **a B2B e-commerce startup's conversion rate 36%** and revenue 25% by rebuilding dashboards and running database audits on funnel data.
- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.

## PROJECTS

**SwipeHire**

- Shipped **a two-sided AI job-matching marketplace** (job seekers and employers) zero-to-one on Python, the OpenAI API and React: wrote the PRD, scoped the MVP, and shipped auto-tailored resumes and intelligent candidate-role matching to 50+ early users, the same two-sided marketplace shape Thumbtack runs between pros and the customers they serve.
- Decided **what to build, cut, or double down on** using 8+ A/B tests and 12+ user interviews, the same ship-and-measure discipline that sunsets what doesn't work, lifting activation 25%.
- Defined **the ICP** and ran competitor teardowns (Jobright and others), crafting positioning and modeling 3 subscription pricing tiers from willingness-to-pay signals.
