SUMMARY

Builder who ships zero-to-one, not decks. Founded PriceKeel, a decision-integrity layer for B2B SaaS deal pricing now running pilots, and wrote the PRD, scoped the MVP and shipped SwipeHire's AI job-matching platform to 50+ users, running 8+ A/B tests that lifted activation 25%. Domain focus: pricing and RevOps tooling, an enterprise industry where I run CRM/CPQ, forecasting and deal-approval work end to end, working closely with engineering and design on both builds. Grounds every build in SQL/GA4 data and 30+ customer interviews, and builds Claude AI agents that turn knowledge into action, steering nondeterministic models toward the productivity Computer is built to accelerate.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- **Founded PriceKeel zero-to-one**, a decision-integrity layer for B2B SaaS deal pricing: envisioned the product from a blank page and wrote the spec for a guardrail engine that recommends an explainable discount guardrail learned from each company's own closed-won and closed-lost deals.
- **Runs the company's CRM/CPQ**, forecast and pipeline reviews and deal approvals end to end, and owns the audit trail that gives Finance evidence for every pricing call, in a team small enough that initiative is the whole job.
- **Validates the product through pilots** with early B2B customers while raising the company's first round, making the uncertain, high-stakes product calls that come with being the only product person in the room.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- **Builds forecasting and market-sizing models** across multiple semiconductor product groups, partnering with Engineering, Sales and Accounts to turn field signal into one shared view of where demand is inflecting.
- **Automates forecasting work with AI agents built on Claude**, steering repetitive analysis toward the highest-value output instead of hand-building every model, the same discipline this role asks for steering nondeterministic systems toward value.
- **Carries P&L and revenue targets** for the segment while building leadership decks and running OKRs with weekly and quarterly business reviews.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- **Defined and ran the product roadmap** for sensor solutions in automotive and industrial segments, managing a 100+ feature backlog with Engineering in Agile across 3 regions, shipping releases 25% faster and cutting time-to-market 20%.
- **Ran 30+ customer interviews** with OEMs and distributors, pairing that qualitative read with SQL/GA4 cohort data across 50,000+ connected devices to flag high-intent adoption cohorts, raising CSAT 22% and feature adoption 18%.
- **Drove GTM for new sensing products** across North America and Europe end to end (positioning, pricing, channel, launch), delivering $2M+ first-year revenue.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- **Built the FY2026 Bleeders & Leakers Power BI dashboard**, ranking 1,200 pricing opportunities against a $627M target across 3 regions, and surfaced $433M in margin gaps for leadership to prioritize.
- **Recovered $700K+ in margin in 2 quarters** and raised distributor and channel-partner margins from 53% to 61%, driving +12% YoY revenue and +8% market share.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- **Owned $100K/month marketing budgets** across multiple business units, leading bid optimization and 15+ A/B tests that cut CPA 25%, and automated the WordPress-to-Pardot-to-Salesforce lead flow, cutting cost per lead 50%.

Customer Success, Pixis (AI Platform) Jul 2021 - Sep 2022

- **Carried P&L on an 8-client**, $15K-$90K/month AI ad-platform portfolio, cutting churn 50% through account-based retention strategy, then used Amplitude and Tableau across 30+ campaigns to lift ROAS 40%.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- **Delivered 16x ROAS** for D2C e-commerce brands and lifted a B2B startup's conversion rate 36% by rebuilding catalog feeds and running database and SEO audits.

PROJECTS

SwipeHire

- **Wrote the PRD and scoped the MVP** for SwipeHire, an AI job-matching platform (Python, OpenAI API, React), zero-to-one, then ran 8+ A/B tests instrumented through GA4/GTM and 12+ user interviews that lifted first-session activation 25% for its first 50+ users, the data-driven flywheel a small product team runs on.
- **Defined the ICP and ran competitor teardowns** (Jobright and others), modeled 3 subscription pricing tiers from willingness-to-pay signals, and hired and managed the team, running OKRs through weekly and quarterly reviews.
