SUMMARY

Business-systems product manager who built OEM and distributor workflows into Sensata's sensor roadmap and a 100+ feature backlog, cutting time-to-market 20%. Starts from internal users' needs, then drives execution: a Power BI dashboard tracking $627M in pricing opportunities, a 0-to-1 CRM/CPQ build at PriceKeel, and Claude AI agents automating review at Applied Materials, the systems discipline a Fictiv/MISUMI Americas roadmap needs.

SKILLS

Product: Roadmapping, Backlog Management, Agile/Scrum, User Research, Jobs-to-be-Done, Prioritization (RICE/ICE), PRD Writing, MVP Scoping
Revenue Operations & Systems: CRM & CPQ Configuration, Forecast & Pipeline Reviews, Deal Desk, Win-Rate & Pipeline-Stage KPIs
Analytics: SQL, Python (pandas, NumPy), Power BI, Tableau, Databricks, Cohort & Funnel Analysis
Product Marketing & Strategy: Market Sizing (TAM/SAM/SOM), Competitive Intelligence, Channel/Distributor Pricing, Segmentation
Tools: AI Agents (Claude), Jira, Confluence, Notion, Figma (basics)

EXPERIENCE

Strategic Marketing III, Applied Materials Jun 2026 - Present

- **Builds forecasting and market-sizing models** across multiple semiconductor product groups, turning input from field, technical and sales stakeholders into one system of record leadership can act on.
- **Automates repetitive analysis with AI agents** built on Claude, replacing manual review with a repeatable system, the same build-vs-buy instinct this kind of role calls for.
- **Runs the operating cadence** behind those systems, driving alignment: P&L and revenue targets, leadership decks and OKRs with weekly and quarterly reviews across Engineering, Sales and Accounts.

Founder & CEO, PriceKeel May 2026 - Present

- **Built a business system from scratch** that integrates with an existing deal platform: a decision-integrity layer that reads live discount exceptions and recommends an explainable guardrail learned from each company's own closed deals.
- **Designed the audit trail** that gives Finance evidence to approve or reject a pricing call, the same system-of-record case this kind of role has to build for the right manufacturing investment.
- **Running pilots with early customers and raising the first round** from investors, selling to RevOps, Sales leadership and Finance against legacy CPQ and deal-desk tooling.
- **Set up and runs the CRM, CPQ, forecast and pipeline reviews, and deal approvals** end to end: the same requirements-to-implementation loop PLM/ERP programs run, with the data-model and integrations knowledge that comes from owning it.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- **Designed the FY2026 Bleeders & Leakers Power BI dashboard**, a business-systems view of 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, flagging $433M in margin gaps for leadership to prioritize.
- **Raised distributor and channel-partner margins from 53% to 61%** by repricing parts sold through Sensata's network of manufacturing partners, driving +12% YoY revenue and +8% market share in under 2 quarters.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- **Owned the product roadmap and 100+ feature backlog** for sensor solutions in automotive and industrial segments, partnering with engineering in Agile across 3 regions and cutting time-to-market 20%.
- **Ran 30+ structured interviews with OEMs and distributors** to identify where their manufacturing workflows and supply chain handoffs actually broke, turning findings into fixes that lifted CSAT 22%.
- **Turned SQL and GA4 data from 50K+ connected industrial devices** into KPI frameworks that flagged high-intent cohorts, lifting feature adoption 18%.
- **Drove GTM for new sensing products** across North America and Europe, positioning, pricing and channel development that generated $2M+ first-year revenue.
- **Analyzed competitor and customer data** across EMEA and the US, feeding sales enablement materials for 50+ reps that lifted win rates 30%.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- **Automated the Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting across multiple business units.
- **Presented budget plans and forecasts** of $100K/month in spend to the leadership team for approval, then hired and managed the team that ran them.
- **Led Paid Search and Paid Social** bid optimization and A/B testing (15+ tests) that cut CPA 25% across multiple business units.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- **Hired and managed an 8-person team** running 8 clients with per-client budgets of $15K-$90K/month, carrying P&L and revenue targets throughout.
- **Fed voice-of-customer signal into the product roadmap** using Amplitude and Tableau across 30+ campaigns, while cutting client churn 50% through proactive account strategy.

PROJECTS

SwipeHire

- **Built an AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, shipped auto-tailored resumes and visa-aware matching; onboarded 50+ early users.
- **Owned the GTM and analytics stack** (GA4, GTM, event tracking) and ran 8+ A/B tests and 12+ user interviews, improving activation 25%.
