## SUMMARY

**Zero-to-one product builder** who ships from PRD to shipped feature without a hand-off. Wrote the PRD, scoped the MVP and shipped SwipeHire alone: a productivity tool built on curiosity-led user research (12+ interviews) and 8+ A/B tests that lifted activation 25%. Owned a 100+ feature backlog and envisioned the Agile roadmap for Sensata's sensor line, working closely with engineering across 3 regions to cut time-to-market 20% for a small team. Grounds every product call in SQL and GA4 data instead of opinion, and ships Claude AI agents to automate the repetitive analysis a small team cannot afford to spend hours on. MS in Marketing Analytics from Simon Business School.

## SKILLS

**Product:** Roadmapping, Backlog Management, Agile/Scrum, PRD Writing, MVP Scoping, User Research, Jobs-to-be-Done, Prioritization (RICE/ICE), Prototyping, Data-Driven Flywheels, 0-to-1 Product Builds

**Analytics:** SQL, Python (pandas, NumPy, Matplotlib), GA4, Google Tag Manager, Amplitude, Power BI, Tableau, A/B & Multivariate Testing, Cohort & Funnel Analysis, Regression

**Product Marketing & Strategy:** GTM Strategy, Positioning & Messaging, Market Sizing (TAM/SAM/SOM), Competitive Intelligence, Launch Plans

**Pricing & Monetization:** Value-Based Pricing, Willingness-to-Pay Research, Packaging, Prioritization Under Constraints

**Tools:** AI Agents (Claude), Jira, Confluence, Notion, Figma (basics)

## EXPERIENCE

### Strategic Marketing III, Applied Materials

Jun 2026 - Present

- **Sizes the semiconductor market** in partnership with Sales, Engineering and Accounts, turning field and technical input into one industry view a product team can build a roadmap against.
- **Builds forecasting and market-sizing models** across multiple product groups, the same conviction-under-uncertainty call a builder makes ahead of a roadmap precedent.
- **Automates repetitive analysis** with AI agents built on Claude, freeing hours for the judgment calls a small, high-leverage team needs from its product owner.

### Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Defined and executed the product roadmap** for sensor solutions in automotive and industrial segments, managing a 100+ feature backlog with engineering in Agile across 3 regions, accelerating releases 25% and cutting time-to-market 20%.
- **Built KPI frameworks in SQL and GA4** across 50K+ connected industrial devices, surfacing high-intent cohorts and adoption signals that lifted feature adoption 18%, the iterate-and-instrument loop a data-driven flywheel runs on.
- **Ran 30+ customer interviews** with OEMs and distributors to find exactly where the product broke down for them, insights that raised CSAT 22%.
- **Owned GTM end to end** for new sensing products across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue.
- **Turned technical specs into customer value** propositions, lifting conversion 15% on priority launches by writing the story that made complex engineering tradeoffs legible to buyers.

### Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- **Built a BU-wide price-increase model** in Power BI flagging line items where a change could lift profitability more than 50%, the same rank-and-prioritize discipline (RICE-style) a product backlog runs on.
- **Drove +12% YoY revenue and +8% market share** through price realignment informed by competitive benchmarking across 10+ key players, a data call made under real uncertainty.

### Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- **Ran bid optimization and A/B testing** across Google Ads, Microsoft Ads, Meta and LinkedIn, the same iterate-fast experimentation loop a flywheel for product-led growth needs, cutting CPA 25%.
- **Automated the Mar-Tech stack** (Salesforce, Adobe Analytics, GA, Google Tag Manager) for closed-loop reporting, building the instrumentation a builder needs before shipping the next test.
- **Led customer research** that lifted conversion 20% and cut CPA 15%, translating what confused prospects into targeting and copy that removed the confusion.

### Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- **Fed voice-of-customer insights to product** from an 8-client, 8-person-team portfolio (\$15K-\$90K/month per client), the qualitative research loop a product manager runs alongside the metrics.
- **Cut client churn 50%** through proactive account strategy, channel diversification and vertical playbooks, prioritizing fixes by where the data showed real risk.
- **Used Amplitude and Tableau** across 30+ campaigns, lifting ROAS 40% via prioritized fixes.

## PROJECTS

### SwipeHire

- **Wrote the PRD and scoped the MVP** for an AI job-matching platform (Python, OpenAI API, React, Figma-designed UI), building it zero-to-one with no existing playbook and no team to hand work off to; onboarded 50+ early users.
- **Owned the analytics stack** (GA4, GTM, event tracking, funnel dashboards) alone, running 8+ A/B tests and 12+ user interviews that lifted activation 25%, the build-instrument-iterate cycle a small team's PM owns end to end.
