EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Designed the **guardrail engine**, an approval-matrix style rule set that reads each discount exception against a company's own closed-won and closed-lost deals and recommends an explainable guardrail, so routine deals clear without a meeting.
- Built the **audit trail** that records the human pricing call with evidence Finance can review, selling the platform to RevOps, Sales leadership and Finance as a cleaner alternative to ad hoc deal-desk spreadsheets and legacy CPQ workarounds.
- Set up and runs the company's own **CRM and CPQ**, forecast and pipeline reviews, and deal approvals, while running pilots with early customers and raising the first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing keeps pace with demand.
- Builds **forecasting and market-sizing models** across multiple product groups, partnering with Sales, Engineering and Accounts to turn field input into one shared view.
- Automates repetitive pricing analysis with **AI agents built on Claude**, the agent-does-first-pass, human-makes-the-call loop a deal desk needs to move fast without losing the final decision, while carrying P&L and revenue targets.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Drove **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** leading the Bleeders & Leakers program, resolving discount exceptions against documented competitive gaps and customer willingness to pay.
- Built the FY2026 **Bleeders & Leakers Power BI dashboard**: 1,200 pricing opportunities against a $627M target, scoring win rate, avg $/win and stage distribution by salesperson and product line, surfacing $433M in margin gaps for leadership to prioritize.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution.
- Shaped **multimillion-dollar customer quotes** with senior executives, building AP26 revenue models and site-transition strategy, and drove +12% YoY revenue and +8% market share through competitively benchmarked price realignment.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, positioning, pricing and channel decisions that drove $2M+ first-year revenue.
