SUMMARY

Founder and operator who has carried **P&L and revenue targets** across four companies, most recently as Strategic Marketing III at Applied Materials. Building **PriceKeel** end-to-end, from product to its first round of equity, while running cross-functional initiatives and operations across Sales, Engineering and Accounts on a high-stakes mandate with no formal authority. Comfortable turning ambiguous problems into a plan and a path toward P&L ownership: built the leadership decks and operating cadence (OKRs, weekly and quarterly business reviews) that scale a growing business, and recovered **\$700K+ in margin in 2 quarters** at Sensata. Automates repetitive analysis with **Claude AI agents**.

SKILLS

Leadership & Operations: P&L and Revenue Targets, Budget Planning and Approval, Leadership and Board Decks, Operating Cadence (OKRs, Weekly/Quarterly Business Reviews), Cross-Functional Execution Without Formal Authority, Stakeholder Management, Hiring and Team Management, Negotiation

EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- **Founded PriceKeel** end-to-end, a decision-integrity layer for B2B SaaS deal pricing that reads a live discount exception and recommends an explainable guardrail learned from each company's own closed-won and closed-lost deals; zero-to-one from idea through build.
- **Own the operating rhythm myself:** run the company's CRM/CPQ, forecast and pipeline reviews, and deal approvals, turning each pricing problem into a repeatable process the way a Founders' Office is expected to institutionalize.
- **Running pilots with early customers and raising the company's first round**, building the investor-facing narrative and the audit trail Finance can rely on for every pricing decision.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- **Partner directly with Sales, Engineering and Accounts** to size the semiconductor market with no formal authority over those teams, and carry P&L and revenue targets for the role.
- **Run OKRs with weekly and quarterly business reviews** and build the leadership decks that tie the operating cadence and forecasting models to one number.
- **Automate repetitive analysis with AI agents built on Claude**, cutting manual work out of recurring reporting so more time goes to the actual decision.

Pricing Lead, Sensata Technologies

Jul 2025 - May 2026

- **Built AP26 revenue models and site transition strategy with senior executives** for the Industrial BU (a multi-\$100M business) across multiple product lines, carrying P&L and revenue targets.
- **Recovered \$700K+ in margin in 2 quarters** running the Bleeders and Leakers program end-to-end: diagnosed the gap, built the negotiation case, and reported outcomes back to leadership.
- **Ran OKRs and built the leadership decks** that carried weekly and quarterly business reviews, the same reporting rigor and operating cadence a Founders' Office is asked to institutionalize.
- **Promoted from Product and Growth Marketing to Pricing Lead in 10 months**, taking on P&L ownership earlier than the standard track.

Product & Growth Marketing, Sensata Technologies

Sep 2024 - Jun 2025

- **Owned GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving \$2M+ first-year revenue while managing the roadmap with Engineering across 3 regions.

Digital Marketing Manager, Plug Power

Oct 2022 - Jul 2023

- **Hired and managed marketing team members** while owning marketing budgets of \$100K/month across multiple business units, building the plans and forecasts presented to the leadership team for approval.

Customer Success Manager, Pixis (AI Platform)

Jul 2021 - Sep 2022

- **Hired and managed an 8-person team** running 8 clients with per-client monthly budgets of \$15K-\$90K, carrying P&L and revenue targets while cutting client churn **50%** through proactive account strategy.

Senior Digital Marketing Analyst, GenY Medium

Jan 2020 - Jun 2021

- **Acted as the main liaison** between regional marketing managers, localization and analytics teams, resolving cross-functional handoffs with no formal authority over any of them.

PROJECTS

SwipeHire

- **Built board decks and ran OKRs** with weekly and quarterly reviews while hiring and managing the team and shipping an AI job-matching platform zero-to-one on Python, OpenAI API and React.
