EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- **Founded PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that classifies every discount exception as risk or opportunity against a guardrail model learned from each company's own closed-won and closed-lost deals.
- **Designed the audit trail** Finance can review, pairing the model's score with the human pricing decision and its evidence; set up the CRM, CPQ and deal-approval flow it runs inside.
- **Running pilots** with early customers and raising the first round, while scoping a margin layer on top of the guardrail engine as the next research question.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- **Sized the semiconductor market** in partnership with Sales, Engineering and Accounts, then built forecasting and market-sizing models across multiple product groups.
- **Shape competitive, value-based pricing** for a high-growth market, analyzing demand trends to forecast its commercial inflection points.

- **Recovered $700K+ in margin in 2 quarters** running that program: negotiations built on competitive gaps and documented customer willingness to pay, the same attribution logic that separates a real opportunity from noise.
- **Raised distributor margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution channels.
- **Drove +12% YoY revenue** and +8% market share through price realignment benchmarked against 10+ competitors, shaping AP26 revenue models and multimillion-dollar customer quotes with senior executives.
