EXPERIENCE

Founder & CEO, PriceKeel

May 2026 - Present

- Built PriceKeel's guardrail engine, which flags a **non-standard deal request** inside the deal platform before a discount exception reaches final review, the same deal-formation checkpoint a Deal Desk owns.
- Designed the **audit trail** that gives Finance an explainable, revenue-recognition-ready record behind every discount decision, so a deal review holds up under a later audit.
- Runs the company's **CRM, CPQ configuration and deal-approval workflow** end to end while running pilots and raising its first round.

Strategic Marketing III, Applied Materials

Jun 2026 - Present

- Sized the **semiconductor market** in partnership with Sales, Engineering and Accounts, turning field and technical input into one view of revenue risk and opportunity.
- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so quotes keep pace with demand shifts.
- Automates repetitive analysis work with **AI agents built on Claude**, the same process-enforcement habit a Deal Desk team scales its standard business practices with.
- Carries **P&L and revenue targets** while building forecasting models across multiple product groups, the same revenue and profitability tracking a Deal Desk is measured against.

- Built the FY2026 **Bleeders and Leakers Power BI dashboard**, tracking 1,200 pricing opportunities against a \$627M target across 3 regions and surfacing \$433M in margin gaps for leadership to prioritize by salesperson.
