- Built the FY2026 **Bleeders & Leakers Power BI dashboard**, the productivity and attainment system validating 1,200 opportunities against a \$627M target across 3 regions, 4 product families and 20 product lines, with win rate, avg \$/win and stage distribution scored by salesperson and product line.
- Surfaced **\$433M in margin gaps** from that dashboard for leadership to prioritize, the same in-year adjustment call a capacity or coverage model has to support.
- Recovered **\$700K+ in margin in 2 quarters** leading the Bleeders & Leakers program, negotiating from the dashboard's own productivity data.
- Shaped **AP26 revenue models** and site-transition strategy with senior stakeholders across Sales and Finance, turning ambiguous top-down targets into a defensible operating plan.
