EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel** from a raw hypothesis: a decision-integrity layer for B2B SaaS deal pricing, built with no existing playbook to follow, the same "build it out of nothing" floor the role is written for.
- Designed the **guardrail engine** that learns an explainable discount rule from each company's own closed-won and closed-lost deals, iterating the product directly against early customer reality.
- Set up and runs the company's **CRM, CPQ, forecast and pipeline reviews**, running pilots with early customers and raising the company's first round of funding.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Turns **Sales, Engineering and Accounts** input into one market-sizing view for a fast-growing semiconductor segment, the cross-functional-leadership muscle a moonshot problem statement needs.
- Builds **competitive, value-based pricing models** and forecasts market inflection points for leadership to act on.
- Carries **P&L and revenue targets** while running the OKR cadence and weekly/quarterly business reviews.
- Automates repetitive analysis with **AI agents built on Claude**.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Led the **Bleeders and Leakers program** end to end, turning a vague margin mandate into a tangible commercial engine: 1,200 pricing opportunities ranked against a $627M target, surfacing $433M in gaps for leadership.
- Recovered **$700K+ in margin in 2 quarters** by closing negotiations built on competitive gaps and customer willingness to pay, raising distributor margins from 53% to 61%.
- Aligned **senior executives** directly on AP26 revenue models and multimillion-dollar customer quotes.
- Promoted from Product & Growth Marketing to Pricing Lead in **10 months**.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe, driving $2M+ in first-year revenue from a standing start.
- Defined and executed the **product roadmap** across 3 regions, managing a 100+ feature backlog with Engineering in Agile.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed **marketing team members**, then built the plans and forecasts presented to the leadership team for budget approval.
- Owned **$100K/month in marketing budgets** across multiple business units, building the forecasts presented to leadership for approval.
- Automated the **WordPress and Pardot** lead flow for closed-loop attribution, cutting cost per lead 50%.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team** running 8 clients on $15K-$90K/month media budgets, carrying P&L and revenue targets.
- Cut **client churn 50%** through proactive account strategy, channel diversification and vertical playbooks.
- Delivered **3x ROAS in one month** for a leading fashion brand via full-funnel restructuring, the kind of fast-cycle experimentation a moonshot problem statement rewards.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Acted as the main **liaison across regional marketing, localization and analytics teams** for D2C e-commerce brands, closing loops no single function owned.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one (Python, OpenAI API, React): wrote the PRD, scoped the MVP, ran 12+ user interviews and onboarded 50+ early users, the exact "builder mindset" and "rapid iteration" discovery loop the role asks for.
- Modeled **3 subscription pricing tiers** from competitor benchmarks and willingness-to-pay signals before scaling, validating demand instead of assuming it.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led a **5-consultant team** sizing a market from 170 facilities to a SAM of 28 across 4 verticals, then presented the market-entry recommendation directly to Safran's leadership, the same "influence founders and stakeholders" muscle the role asks for.
